## Namespace Index

### 1.1 Packages

Here are the packages with brief descriptions (if available):

<a href="#">com</a>	11
<a href="#">com.progmethgame</a>	11
<a href="#">com.progmethgame.client</a>	11
<a href="#">com.progmethgame.client.graphic</a>	12
<a href="#">com.progmethgame.client.graphic.component</a>	12
<a href="#">com.progmethgame.common</a>	12
<a href="#">com.progmethgame.common.context</a>	12
<a href="#">com.progmethgame.launcher</a>	12
<a href="#">com.progmethgame.launcher.screen</a>	13
<a href="#">com.progmethgame.network</a>	13
<a href="#">com.progmethgame.network.event</a>	13
<a href="#">com.progmethgame.network.event.base</a>	14
<a href="#">com.progmethgame.network.event.client</a>	14
<a href="#">com.progmethgame.network.event.server</a>	14
<a href="#">com.progmethgame.server</a>	14
<a href="#">com.progmethgame.server.blocks</a>	15
<a href="#">com.progmethgame.server.entities</a>	15
<a href="#">com.progmethgame.server.entities.bullets</a>	15
<a href="#">com.progmethgame.server.entities.effects</a>	16
<a href="#">com.progmethgame.server.entities.guns</a>	16

## Chapter 2

# Hierarchical Index

### 2.1 Class Hierarchy

This inheritance list is sorted roughly, but not completely, alphabetically:

com.progmethgame.server.blocks.BlockManager . . . . .	23
com.progmethgame.server.entities.bullets.BulletConfig . . . . .	27
com.progmethgame.network.ClientBusListener . . . . .	38
com.progmethgame.client.ClientRuntime . . . . .	50
com.progmethgame.server.entities.Player.Color . . . . .	56
com.progmethgame.common.DisplayType . . . . .	67
com.progmethgame.server.entities.effects.EffectConfig . . . . .	73
com.progmethgame.common.EntityData . . . . .	79
Exception	
com.progmethgame.server.MapParserException . . . . .	116
com.progmethgame.server.ServerStartupError . . . . .	157
com.progmethgame.common.GameConfig . . . . .	81
com.progmethgame.common.context.GameContext . . . . .	82
com.progmethgame.network.event.base.GameEvent< T > . . . . .	88
com.progmethgame.network.event.base.GameEvent< ClientBusListener > . . . . .	88
com.progmethgame.network.event.base.ServerEvent . . . . .	142
com.progmethgame.network.event.server.ServerAddEntityEvent . . . . .	132
com.progmethgame.network.event.server.ServerPlaySoundEvent . . . . .	144
com.progmethgame.network.event.server.ServerReadyEvent . . . . .	146
com.progmethgame.network.event.server.ServerRemoveEntityEvent . . . . .	147
com.progmethgame.network.event.server.ServerResetEvent . . . . .	149
com.progmethgame.network.event.server.ServerUpdateEntityEvent . . . . .	159
com.progmethgame.network.event.base.GameEvent< ServerBusListener > . . . . .	88
com.progmethgame.network.event.base.ClientEvent . . . . .	49
com.progmethgame.network.event.client.ClientDebugEvent . . . . .	42
com.progmethgame.network.event.client.ClientDisconnectEvent . . . . .	44
com.progmethgame.network.event.client.ClientJoinEvent . . . . .	49
com.progmethgame.network.event.client.PlayerFireEvent . . . . .	127
com.progmethgame.network.event.client.PlayerMovementEvent . . . . .	128
com.progmethgame.network.event.client.PlayerSwapGunEvent . . . . .	130
com.progmethgame.server.entities.guns.Gun . . . . .	102
com.progmethgame.server.entities.guns.BurnGun . . . . .	34
com.progmethgame.server.entities.guns.ConfuseGun . . . . .	61
com.progmethgame.server.entities.guns.HookGun . . . . .	110

com.progmethgame.server.entities.guns.SlowGun	163
com.progmethgame.server.entities.guns.StuntGun	183
com.progmethgame.server.entities.guns.TeleportGun	185
com.progmethgame.server.entities.guns.GunConfig	105
com.progmethgame.client.graphic.component.Healthbar	106
com.progmethgame.server.blocks.Interactable	113
com.progmethgame.server.blocks.BurningBlock	35
com.progmethgame.server.blocks.BurnBlock	31
com.progmethgame.server.blocks.BurnFloor	33
com.progmethgame.server.blocks.CooldownBlock	64
com.progmethgame.server.blocks.CureFloor	66
com.progmethgame.server.blocks.SpikeBlock	168
com.progmethgame.server.blocks.SpikeFloor	170
com.progmethgame.network.NetworkPacket< T >	117
com.progmethgame.client.graphic.component.Overlay	118
com.progmethgame.client.graphic.component.BannerWinOverlay	18
com.progmethgame.client.graphic.component.HudOverlay	111
com.progmethgame.client.graphic.component.StatusOverlay	179
Runnable	
com.progmethgame.network.ServerBus	133
com.progmethgame.network.SerializationUtil	131
com.progmethgame.network.ServerBusListener	137
com.progmethgame.server.ServerRuntime	150
com.progmethgame.network.ServerEventBroadcast	143
com.progmethgame.common.SoundType	166
com.progmethgame.server.entities.effects.StatusEffect	176
com.progmethgame.server.entities.effects.Burn	30
com.progmethgame.server.entities.effects.Confuse	58
com.progmethgame.server.entities.effects.Slow	160
com.progmethgame.server.entities.effects.Stunt	181
com.progmethgame.server.entities.Tickable	191
com.progmethgame.server.blocks.Block	21
com.progmethgame.server.blocks.BurningBlock	35
com.progmethgame.server.blocks.CooldownBlock	64
com.progmethgame.server.blocks.SolidBlock	165
com.progmethgame.server.blocks.WalkableBlock	194
com.progmethgame.server.entities.Entity	74
com.progmethgame.server.entities.bullets.Bullet	23
com.progmethgame.server.entities.bullets.BulletTest	28

#### Information Text

The documentation for this class was generated from the following file:

- /home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/launcher/screen/AboutStage.java

## 5.2 com.progmethgame.client.graphic.component.BannerWinOverlay Class Reference

Inheritance diagram for com.progmethgame.client.graphic.component.BannerWinOverlay:

## Public Member Functions

- [BannerWinOverlay](#) ()
- [BannerWinOverlay](#) (UUID winPlayer)
- void [render](#) (Viewport view, Batch batch, Rectangle rect, [ClientEntity](#) target)

## Private Attributes

- UUID [winningPlayer](#)

### 5.2.1 Detailed Description

[Overlay](#) for Victory or Lose message display

### 5.2.2 Constructor & Destructor Documentation

#### 5.2.2.1 BannerWinOverlay() [1/2]

```
com.progmethgame.client.graphic.component.BannerWinOverlay.BannerWinOverlay ( )
```

#### 5.2.2.2 BannerWinOverlay() [2/2]

```
com.progmethgame.client.graphic.component.BannerWinOverlay.BannerWinOverlay (
    UUID winPlayer )
```

Create banner which show winPlayer as the winner

#### Parameters

<i>winPlayer</i>	
------------------	--

### 5.2.3 Member Function Documentation

#### 5.2.3.1 render()

```
void com.progmethgame.client.graphic.component.BannerWinOverlay.render (
    Viewport view,
```

```
Batch batch,
Rectangle rect,
ClientEntity target )
```

Render this overlay

#### Parameters

<i>view</i>	Screen's viewport
<i>batch</i>	Screen's batch
<i>rect</i>	The entity's bounding box in screen space.
<i>target</i>	The owner of this overlay

Reimplemented from [com.progmethgame.client.graphic.component.Overlay](#).

## 5.2.4 Member Data Documentation

### 5.2.4.1 winningPlayer

UUID `com.progmethgame.client.graphic.component.BannerWinOverlay.winningPlayer` [private]

Player to show winning message to

The documentation for this class was generated from the following file:

- `/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/client/graphic/component/BannerWinOverlay.java`

## 5.3 com.progmethgame.launcher.screen.BaseStage Class Reference

Inheritance diagram for `com.progmethgame.launcher.screen.BaseStage`:

### Public Member Functions

- [BaseStage](#) ()

## Protected Attributes

- Skin [skin](#)

### 5.3.1 Detailed Description

Stage with skin loaded

### 5.3.2 Constructor & Destructor Documentation

#### 5.3.2.1 BaseStage()

```
com.progmethgame.launcher.screen.BaseStage.BaseStage ( )
```

### 5.3.3 Member Data Documentation

#### 5.3.3.1 skin

Skin `com.progmethgame.launcher.screen.BaseStage.skin` [protected]

Scene2d skin

The documentation for this class was generated from the following file:

- `/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/launcher/screen/BaseStage.java`

## 5.4 com.progmethgame.server.blocks.Block Class Reference

Inheritance diagram for `com.progmethgame.server.blocks.Block`:

## Public Member Functions

- abstract boolean [isSolid](#) ()
- void [tick](#) (float delta)

### 5.4.1 Detailed Description

Represent a tile on a map

Author

pigt

### 5.4.2 Member Function Documentation

#### 5.4.2.1 isSolid()

```
abstract boolean com.progmethgame.server.blocks.Block.isSolid ( ) [abstract]
```

Can entity pass through this block?

Returns

solidness

Reimplemented in [com.progmethgame.server.blocks.SpikeBlock](#), [com.progmethgame.server.blocks.CureFloor](#), [com.progmethgame.server.blocks.SpikeFloor](#), [com.progmethgame.server.blocks.BurnBlock](#), [com.progmethgame.server.blocks.BurnFloor](#), [com.progmethgame.server.blocks.SolidBlock](#), and [com.progmethgame.server.blocks.WalkableBlock](#).

#### 5.4.2.2 tick()

```
void com.progmethgame.server.blocks.Block.tick (
    float delta )
```

Advance this component by delta second

Parameters

<i>delta</i>	no. of second to advance
--------------	--------------------------

Implements [com.progmethgame.server.entities.Tickable](#).

Reimplemented in [com.progmethgame.server.blocks.ColdownBlock](#).

The documentation for this class was generated from the following file:

- [/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/server/blocks/Block.java](#)↔

## 5.5 com.progmethgame.server.blocks.BlockManager Class Reference

### Static Public Member Functions

- static [Block fromId](#) (int id)

#### 5.5.1 Detailed Description

A Factory to generate a block from an ID

Author

pigt

#### 5.5.2 Member Function Documentation

##### 5.5.2.1 fromId()

```
static Block com.progmethgame.server.blocks.BlockManager.fromId (
    int id ) [static]
```

Create a block object with that id type

Parameters

<i>id</i>	id of the block
-----------	-----------------

Returns

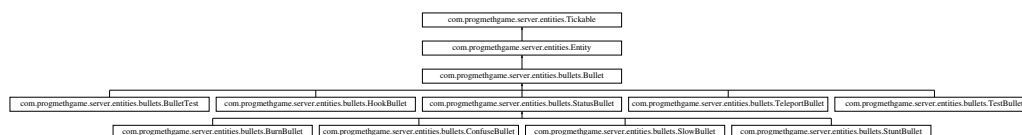

[Block](#) with specified id

The documentation for this class was generated from the following file:

- /home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/server/blocks/BlockManager.java

## 5.6 com.progmethgame.server.entities.bullets.Bullet Class Reference

Inheritance diagram for com.progmethgame.server.entities.bullets.Bullet:

## Public Member Functions

- [Bullet](#) ([DisplayType](#) type, float [speed](#), [Player](#) owner)
- abstract void [onCollide](#) ([Player](#) hitPlayer)
- void [onCollideSolid](#) ([Block](#) block)
- void [onCollide](#) ([Entity](#) other)
- float [getPhysicalSize](#) ()
- abstract [Bullet](#) [cpy](#) ()
- void [tick](#) (float delta)

## Protected Attributes

- float [speed](#)
- [Player](#) owner

### 5.6.1 Detailed Description

A bullet entity

### 5.6.2 Constructor & Destructor Documentation

#### 5.6.2.1 [Bullet](#)()

```
com.progmethgame.server.entities.bullets.Bullet.Bullet (
    DisplayType type,
    float speed,
    Player owner )
```

### 5.6.3 Member Function Documentation

#### 5.6.3.1 [cpy](#)()

```
abstract Bullet com.progmethgame.server.entities.bullets.Bullet.cpy ( ) [abstract]
```

Duplicate this bullet

Reimplemented in [com.progmethgame.server.entities.bullets.HookBullet](#), [com.progmethgame.server.entities.bullets.BulletTest](#), [com.progmethgame.server.entities.bullets.TeleportBullet](#), [com.progmethgame.server.entities.bullets.TestBullet](#), [com.progmethgame.server.entities.bullets.BurnBullet](#), [com.progmethgame.server.entities.bullets.ConfuseBullet](#), [com.progmethgame.server.entities.bullets.SlowBullet](#), and [com.progmethgame.server.entities.bullets.StuntBullet](#).

### 5.6.3.2 getPhysicalSize()

```
float com.progmethgame.server.entities.bullets.Bullet.getPhysicalSize ( )
```

Return physical size for physic engine's [onCollide\(Entity\)](#) calculation.

Size in this case is the side length of the bounding square. The bounding box has the same center as the default bound.

Reimplemented from [com.progmethgame.server.entities.Entity](#).

### 5.6.3.3 onCollide() [1/2]

```
void com.progmethgame.server.entities.bullets.Bullet.onCollide (
    Entity other )
```

Called when entity touched other.

#### Parameters

<i>other</i>	the touched entity
--------------	--------------------

Reimplemented from [com.progmethgame.server.entities.Entity](#).

### 5.6.3.4 onCollide() [2/2]

```
abstract void com.progmethgame.server.entities.bullets.Bullet.onCollide (
    Player hitPlayer ) [abstract]
```

Called when the bullet collide a player

Reimplemented in [com.progmethgame.server.entities.bullets.StatusBullet](#), [com.progmethgame.server.entities.bullets.BulletTest](#), [com.progmethgame.server.entities.bullets.HookBullet](#), [com.progmethgame.server.entities.bullets.TestBullet](#), and [com.progmethgame.server.entities.bullets.TeleportBullet](#).

### 5.6.3.5 onCollideSolid()

```
void com.progmethgame.server.entities.bullets.Bullet.onCollideSolid (
    Block block )
```

Call when entity hit solid block

## Parameters

<i>block</i>	the block that this entity collided with
--------------	--

Reimplemented from [com.progmethgame.server.entities.Entity](#).

**5.6.3.6 tick()**

```
void com.progmethgame.server.entities.bullets.Bullet.tick (
    float delta )
```

Advance this component by delta second

## Parameters

<i>delta</i>	no. of second to advance
--------------	--------------------------

Reimplemented from [com.progmethgame.server.entities.Entity](#).

**5.6.4 Member Data Documentation****5.6.4.1 owner**

[Player](#) com.progmethgame.server.entities.bullets.Bullet.owner [protected]

[Player](#) who shot the bullet

**5.6.4.2 speed**

float com.progmethgame.server.entities.bullets.Bullet.speed [protected]

[Bullet](#) speed

The documentation for this class was generated from the following file:

- /home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/server/entities/bullets/Bullet.[↔](#)java

## 5.7 com.progmethgame.server.entities.bullets.BulletConfig Class Reference

### Static Public Attributes

- static final float [HOOK\\_BULLET\\_SPEED](#) = 6.0f
- static final float [HOOK\\_SPEED](#) = 10f
- static final float [TELEPORT\\_BULLET\\_SPEED](#) = 10f
- static final float [BURN\\_BULLET\\_SPEED](#) = 7f
- static final float [CONFUSE\\_BULLET\\_SPEED](#) = 8f
- static final float [SLOW\\_BULLET\\_SPEED](#) = 8f
- static final float [STUNT\\_BULLET\\_SPEED](#) = 6.5f

### 5.7.1 Detailed Description

Store bullet's constant

### 5.7.2 Member Data Documentation

#### 5.7.2.1 BURN\_BULLET\_SPEED

```
final float com.progmethgame.server.entities.bullets.BulletConfig.BURN_BULLET_SPEED = 7f [static]
```

Burn bullet speed

#### 5.7.2.2 CONFUSE\_BULLET\_SPEED

```
final float com.progmethgame.server.entities.bullets.BulletConfig.CONFUSE_BULLET_SPEED = 8f [static]
```

Confuse [Bullet](#) speed

#### 5.7.2.3 HOOK\_BULLET\_SPEED

```
final float com.progmethgame.server.entities.bullets.BulletConfig.HOOK_BULLET_SPEED = 6.0f [static]
```

Hook [Bullet](#) speed

#### 5.7.2.4 HOOK\_SPEED

```
final float com.progmethgame.server.entities.bullets.BulletConfig.HOOK_SPEED = 10f [static]
```

Hook [Bullet](#) hook speed

### 5.7.2.5 SLOW\_BULLET\_SPEED

```
final float com.progmethgame.server.entities.bullets.BulletConfig.SLOW_BULLET_SPEED = 8f [static]
```

Slow [Bullet](#) speed

### 5.7.2.6 STUNT\_BULLET\_SPEED

```
final float com.progmethgame.server.entities.bullets.BulletConfig.STUNT_BULLET_SPEED = 6.5f [static]
```

Stunt [Bullet](#) speed

### 5.7.2.7 TELEPORT\_BULLET\_SPEED

```
final float com.progmethgame.server.entities.bullets.BulletConfig.TELEPORT_BULLET_SPEED = 10f [static]
```

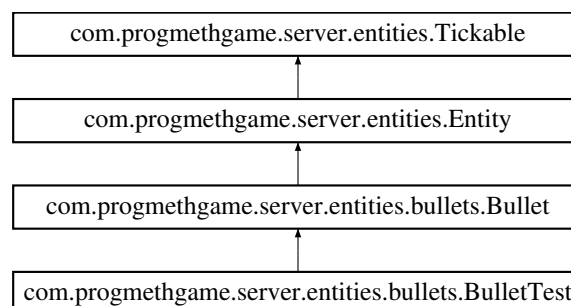

Teleport [Bullet](#) speed

The documentation for this class was generated from the following file:

- [/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/server/entities/bullets/BulletConfig.java](#)

## 5.8 com.progmethgame.server.entities.bullets.BulletTest Class Reference

Inheritance diagram for com.progmethgame.server.entities.bullets.BulletTest:

### Public Member Functions

- [BulletTest](#) ([Player](#) owner)
- void [onCollide](#) ([Player](#) hitPlayer)
- [Bullet](#) cpy ()

## Additional Inherited Members

### 5.8.1 Detailed Description

A demo bullet for testing purpose.

Author

pigt

### 5.8.2 Constructor & Destructor Documentation

#### 5.8.2.1 BulletTest()

```
com.progmethgame.server.entities.bullets.BulletTest.BulletTest (
    Player owner )
```

### 5.8.3 Member Function Documentation

#### 5.8.3.1 cpy()

```
Bullet com.progmethgame.server.entities.bullets.BulletTest.cpy ( )
```

Duplicate this bullet

Reimplemented from [com.progmethgame.server.entities.bullets.Bullet](#).

#### 5.8.3.2 onCollide()

```
void com.progmethgame.server.entities.bullets.BulletTest.onCollide (
    Player hitPlayer )
```

Called when the bullet collide a player

Reimplemented from [com.progmethgame.server.entities.bullets.Bullet](#).

The documentation for this class was generated from the following file:

- `/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/server/entities/bullets/BulletTest.java`

## 5.9 com.progmethgame.server.entities.effects.Burn Class Reference

Inheritance diagram for com.progmethgame.server.entities.effects.Burn:

### Public Member Functions

- [Burn](#) ()
- void [getEffect](#) ([Player](#) p)
- void [removeEffect](#) ([Player](#) p)
- [Burn cpy](#) ()

### Static Package Attributes

- static final int [dps](#) = [EffectConfig.BURN\\_DPS](#)

### Additional Inherited Members

#### 5.9.1 Detailed Description

An status effect that constantly decrease the player's health

#### 5.9.2 Constructor & Destructor Documentation

##### 5.9.2.1 Burn()

```
com.progmethgame.server.entities.effects.Burn.Burn ( )
```

#### 5.9.3 Member Function Documentation

##### 5.9.3.1 cpy()

```
Burn com.progmethgame.server.entities.effects.Burn.cpy ( )
```

Clone this effect

Reimplemented from [com.progmethgame.server.entities.effects.StatusEffect](#).

### 5.9.3.2 `getEffect()`

```
void com.progmethgame.server.entities.effects.Burn.getEffect (
    Player p )
```

Apply effect to the player

Reimplemented from [com.progmethgame.server.entities.effects.StatusEffect](#).

### 5.9.3.3 `removeEffect()`

```
void com.progmethgame.server.entities.effects.Burn.removeEffect (
    Player p )
```

Remove effect from the player

Reimplemented from [com.progmethgame.server.entities.effects.StatusEffect](#).

## 5.9.4 Member Data Documentation

### 5.9.4.1 `dps`

```
final int com.progmethgame.server.entities.effects.Burn.dps = EffectConfig.BURN_DPS [static],
[package]
```

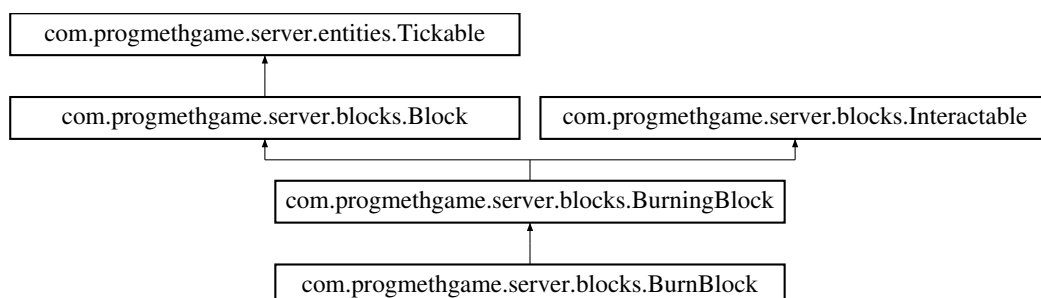

Damage per second after this effect is applied

The documentation for this class was generated from the following file:

- `/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/server/entities/effects/Burn.`↔  
java

## 5.10 com.progmethgame.server.blocks.BurnBlock Class Reference

Inheritance diagram for com.progmethgame.server.blocks.BurnBlock:

## Public Member Functions

- boolean [isSolid](#) ()

### 5.10.1 Detailed Description

A solid block that burn the player when touched

Author

pigt

### 5.10.2 Member Function Documentation

#### 5.10.2.1 isSolid()

```
boolean com.progmethgame.server.blocks.BurnBlock.isSolid ( )
```

Can entity pass through this block?

Returns

solidness

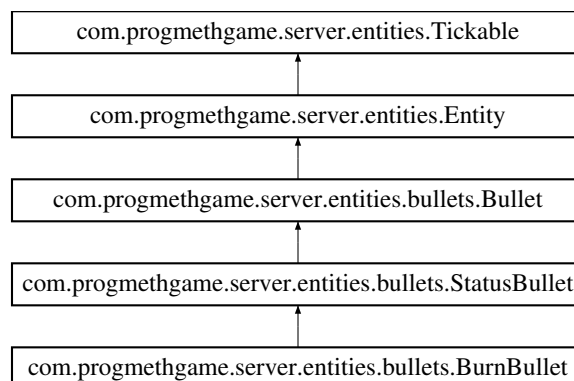

Reimplemented from [com.progmethgame.server.blocks.Block](#).

The documentation for this class was generated from the following file:

- [/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/server/blocks/BurnBlock.java](#)

## 5.11 com.progmethgame.server.entities.bullets.BurnBullet Class Reference

Inheritance diagram for com.progmethgame.server.entities.bullets.BurnBullet:

## Public Member Functions

- [BurnBullet](#) ([Player owner](#))
- [Bullet cpy](#) ()

## Additional Inherited Members

### 5.11.1 Constructor & Destructor Documentation

#### 5.11.1.1 BurnBullet()

```
com.progmethgame.server.entities.bullets.BurnBullet.BurnBullet (
    Player owner )
```

### 5.11.2 Member Function Documentation

#### 5.11.2.1 cpy()

```
Bullet com.progmethgame.server.entities.bullets.BurnBullet.cpy ( )
```

Duplicate this bullet

Reimplemented from [com.progmethgame.server.entities.bullets.Bullet](#).

The documentation for this class was generated from the following file:

- [/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/server/entities/bullets/BurnBullet.java](#)

## 5.12 com.progmethgame.server.blocks.BurnFloor Class Reference

Inheritance diagram for com.progmethgame.server.blocks.BurnFloor:

## Public Member Functions

- boolean [isSolid](#) ()

### 5.12.1 Detailed Description

A floor that burn the player when touched

Author

pigt

### 5.12.2 Member Function Documentation

#### 5.12.2.1 isSolid()

```
boolean com.progmethgame.server.blocks.BurnFloor.isSolid ( )
```

Can entity pass through this block?

Returns

solidness

Reimplemented from [com.progmethgame.server.blocks.Block](#).

The documentation for this class was generated from the following file:

- [/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/server/blocks/BurnFloor.java](#)

## 5.13 com.progmethgame.server.entities.guns.BurnGun Class Reference

Inheritance diagram for com.progmethgame.server.entities.guns.BurnGun:

## Public Member Functions

- [BurnGun](#) (Player owner)

## Additional Inherited Members

### 5.13.1 Detailed Description

[Gun](#) that spawn burn bullet

### 5.13.2 Constructor & Destructor Documentation

#### 5.13.2.1 BurnGun()

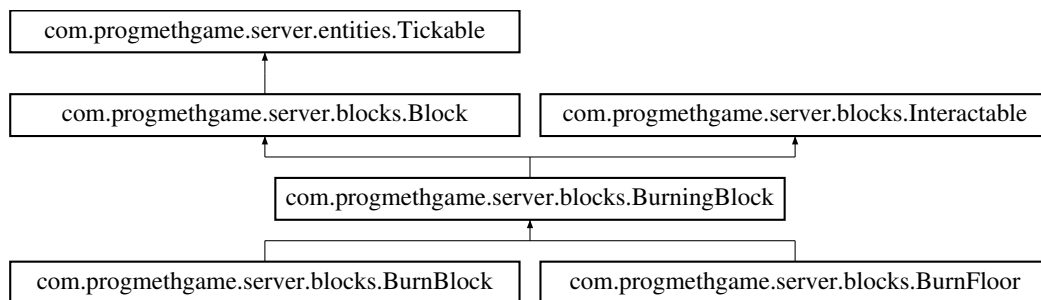

```
com.progmethgame.server.entities.guns.BurnGun.BurnGun (
    Player owner )
```

The documentation for this class was generated from the following file:

- /home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/server/entities/guns/BurnGun.java

## 5.14 com.progmethgame.server.blocks.BurningBlock Class Reference

Inheritance diagram for com.progmethgame.server.blocks.BurningBlock:

## Public Member Functions

- void [interact](#) ([Player](#) p)

### 5.14.1 Detailed Description

A block that will set the player on fire if touched

Author

pigt

## 5.14.2 Member Function Documentation

### 5.14.2.1 interact()

```
void com.progmethgame.server.blocks.BurningBlock.interact (
    Player p )
```

Implements [com.progmethgame.server.blocks.Interactable](#).

The documentation for this class was generated from the following file:

- [/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/server/blocks/BurningBlock.java](#)

## 5.15 com.progmethgame.network.ClientBus Class Reference

Inheritance diagram for com.progmethgame.network.ClientBus:

### Public Member Functions

- [ClientBus](#) (String ipaddr, [ClientBusListener](#) listener) throws IOException
- void [sendEvent](#) ([ClientEvent](#) event)
- void [dispose](#) ()

### Private Attributes

- final Client [client](#)

### 5.15.1 Detailed Description

Communication bus for the client

### 5.15.2 Constructor & Destructor Documentation

#### 5.15.2.1 ClientBus()

```
com.progmethgame.network.ClientBus.ClientBus (
    String ipaddr,
    ClientBusListener listener ) throws IOException
```

Connect to the server.

Constructor might block for few second.

## Parameters

<i>ipaddr</i>	server's IP address
<i>listener</i>	bus's event listener

## Exceptions

<i>IOException</i>	
--------------------	--

## 5.15.3 Member Function Documentation

### 5.15.3.1 dispose()

```
void com.progmethgame.network.ClientBus.dispose ( )
```

### 5.15.3.2 sendEvent()

```
void com.progmethgame.network.ClientBus.sendEvent (
    ClientEvent event )
```

Send an event to the server

## Parameters

<i>event</i>	
--------------	--

## 5.15.4 Member Data Documentation

### 5.15.4.1 client

```
final Client com.progmethgame.network.ClientBus.client [private]
```

KyroNet client

The documentation for this class was generated from the following file:

- /home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/network/Client↵  
Bus.java

## 5.16 com.progmethgame.network.ClientBusListener Interface Reference

Inheritance diagram for com.progmethgame.network.ClientBusListener:

### Public Member Functions

- void [onEntityAdd](#) ([EntityData](#) data)
- void [onEntityRemove](#) (UUID id)
- void [onEntityUpdate](#) ([EntityData](#) data)
- void [onPlaySound](#) ([SoundType](#) sound)
- void [onServerReady](#) (UUID assignedId)
- void [onServerReset](#) ()
- void [onDisconnect](#) ()

### 5.16.1 Detailed Description

Client bus's event listener

### 5.16.2 Member Function Documentation

#### 5.16.2.1 onDisconnect()

```
void com.progmethgame.network.ClientBusListener.onDisconnect ( )
```

Called when server disconnect eg. Connection lost, Server closed

Implemented in [com.progmethgame.client.ClientRuntime](#).

#### 5.16.2.2 onEntityAdd()

```
void com.progmethgame.network.ClientBusListener.onEntityAdd (  
    EntityData data )
```

Server added an entity

**Parameters**

<i>data</i>	entity's data
-------------	---------------

Implemented in [com.progmethgame.client.ClientRuntime](#).

**5.16.2.3 onEntityRemove()**

```
void com.progmethgame.network.ClientBusListener.onEntityRemove (
    UUID id )
```

Server remove an entity

**Parameters**

<i>id</i>	entity's id
-----------	-------------

Implemented in [com.progmethgame.client.ClientRuntime](#).

**5.16.2.4 onEntityUpdate()**

```
void com.progmethgame.network.ClientBusListener.onEntityUpdate (
    EntityData data )
```

Server update entity's data

**Parameters**

<i>data</i>	update data
-------------	-------------

Implemented in [com.progmethgame.client.ClientRuntime](#).

**5.16.2.5 onPlaySound()**

```
void com.progmethgame.network.ClientBusListener.onPlaySound (
    SoundType sound )
```

Server wants to play a sound

**Parameters**

<i>sound</i>	
--------------	--

Implemented in [com.progmethgame.client.ClientRuntime](#).

#### 5.16.2.6 onServerReady()

```
void com.progmethgame.network.ClientBusListener.onServerReady (
    UUID assignedId )
```

Server have initialized the client and is now ready.

Always call after server finished sending entities and ready to display data.

##### Parameters

<i>assignedId</i>	ID assigned by the server
-------------------	---------------------------

Implemented in [com.progmethgame.client.ClientRuntime](#).

#### 5.16.2.7 onServerReset()

```
void com.progmethgame.network.ClientBusListener.onServerReset ( )
```

Server instruct client to clear all game state.

Always called first when client connect or level reset

Implemented in [com.progmethgame.client.ClientRuntime](#).

The documentation for this interface was generated from the following file:

- /home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/network/ClientBusListener.java

## 5.17 com.progmethgame.common.context.ClientContext Interface Reference

Inheritance diagram for com.progmethgame.common.context.ClientContext:

## Public Member Functions

- AssetManager [getAssetManager](#) ()
- ClientBus [getNetworkBus](#) ()
- void [quit](#) ()
- void [tick](#) (float delta)
- Map< UUID, ClientEntity > [getEntities](#) ()
- UUID [getClientUUID](#) ()

### 5.17.1 Detailed Description

Client's context. Provides client's data interface and action

### 5.17.2 Member Function Documentation

#### 5.17.2.1 [getAssetManager\(\)](#)

```
AssetManager com.progmethgame.common.context.ClientContext.getAssetManager ( )
```

Get AssetManager

Returns

Implemented in [com.progmethgame.client.ClientRuntime](#).

#### 5.17.2.2 [getClientUUID\(\)](#)

```
UUID com.progmethgame.common.context.ClientContext.getClientUUID ( )
```

Return the UUID assigned by the server.

Note that Entity with the same UUID represent controllable character.

Implemented in [com.progmethgame.client.ClientRuntime](#).

#### 5.17.2.3 [getEntities\(\)](#)

```
Map<UUID, ClientEntity> com.progmethgame.common.context.ClientContext.getEntities ( )
```

Return unmodifiable list of all entities.

Implemented in [com.progmethgame.client.ClientRuntime](#).

#### 5.17.2.4 `getNetworkBus()`

`ClientBus` `com.progmethgame.common.context.ClientContext.getNetworkBus ( )`

Get client-server's communication bus.

Returns

Implemented in [com.progmethgame.client.ClientRuntime](#).

#### 5.17.2.5 `quit()`

`void` `com.progmethgame.common.context.ClientContext.quit ( )`

Quit the game and return to main screen.

Implemented in [com.progmethgame.client.ClientRuntime](#).

#### 5.17.2.6 `tick()`

`void` `com.progmethgame.common.context.ClientContext.tick (`  
`float delta )`

Apply time step by delta seconds.

Implemented in [com.progmethgame.client.ClientRuntime](#).

The documentation for this interface was generated from the following file:

- `/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/common/context/ClientContext.java`

## 5.18 `com.progmethgame.network.event.client.ClientDebugEvent` Class Reference

Inheritance diagram for `com.progmethgame.network.event.client.ClientDebugEvent`:

## Public Member Functions

- [ClientDebugEvent](#) (String msg)
- void [notifyListener](#) ([ServerBusListener](#) target)

## Private Member Functions

- [ClientDebugEvent](#) ()

## Private Attributes

- String [debugMsg](#)

## Additional Inherited Members

### 5.18.1 Detailed Description

Client issued debug command event

### 5.18.2 Constructor & Destructor Documentation

#### 5.18.2.1 ClientDebugEvent() [1/2]

```
com.progmethgame.network.event.client.ClientDebugEvent.ClientDebugEvent ( ) [private]
```

#### 5.18.2.2 ClientDebugEvent() [2/2]

```
com.progmethgame.network.event.client.ClientDebugEvent.ClientDebugEvent (
    String msg )
```

Create new debug event with specified command

#### Parameters

<i>msg</i>	command
------------	---------

### 5.18.3 Member Function Documentation

### 5.18.3.1 notifyListener()

```
void com.progmethgame.network.event.client.ClientDebugEvent.notifyListener (
    ServerBusListener target )
```

## 5.18.4 Member Data Documentation

### 5.18.4.1 debugMsg

```
String com.progmethgame.network.event.client.ClientDebugEvent.debugMsg [private]
```

Debug command

The documentation for this class was generated from the following file:

- /home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/network/event/client/ClientDebugEvent.java

## 5.19 com.progmethgame.network.event.client.ClientDisconnectEvent Class Reference

Inheritance diagram for com.progmethgame.network.event.client.ClientDisconnectEvent:

### Public Member Functions

- void `notifyListener` (`ServerBusListener` target)

### Additional Inherited Members

#### 5.19.1 Detailed Description

Virtual event for when the client disconnect or lose connection to the server

## 5.19.2 Member Function Documentation

### 5.19.2.1 notifyListener()

```
void com.progmethgame.network.event.client.ClientDisconnectEvent.notifyListener (
    ServerBusListener target )
```

The documentation for this class was generated from the following file:

- /home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/network/event/client/ClientDisconnectEvent.java

## 5.20 com.progmethgame.client.ClientEntity Class Reference

Inheritance diagram for com.progmethgame.client.ClientEntity:

### Public Member Functions

- [ClientEntity](#) ([EntityData](#) data)
- UUID [getGid](#) ()
- [DisplayType](#) [getType](#) ()
- void [update](#) ([EntityData](#) data)
- void [tick](#) (float delta)
- void [drawOverlay](#) (Viewport view, Batch batch, Rectangle rect)

### Private Member Functions

- void [applyDisplayType](#) ()

### Private Attributes

- UUID [gid](#)
- [DisplayType](#) [type](#)
- Vector2[] [lastPosBuffer](#)
- long[] [lastUpdateTimeBuffer](#)
- List< [Overlay](#) > [overlays](#)
- Vector2[] [lastDirBuffer](#)

### 5.20.1 Detailed Description

Represent client-side's entity data.

This is the only entity available to the client. It contains just enough data to render whatever it represent.

### 5.20.2 Constructor & Destructor Documentation

#### 5.20.2.1 ClientEntity()

```
com.progmethgame.client.ClientEntity.ClientEntity (
    EntityData data )
```

Create new entity from data

##### Parameters

<i>data</i>	entity's data
-------------	---------------

### 5.20.3 Member Function Documentation

#### 5.20.3.1 applyDisplayType()

```
void com.progmethgame.client.ClientEntity.applyDisplayType ( ) [private]
```

Update this sprite's texture to match the display type

#### 5.20.3.2 drawOverlay()

```
void com.progmethgame.client.ClientEntity.drawOverlay (
    Viewport view,
    Batch batch,
    Rectangle rect )
```

Draw this entity's overlays

##### Parameters

<i>view</i>	ScreenViewport
<i>batch</i>	Drawing Batch
<i>rect</i>	Rectangle representing this entity in the viewport

### 5.20.3.3 `getGid()`

```
UUID com.progmethgame.client.ClientEntity.getGid ( )
```

#### Returns

This entity's ID

### 5.20.3.4 `getType()`

```
DisplayType com.progmethgame.client.ClientEntity.getType ( )
```

#### Returns

This entity's texture

### 5.20.3.5 `tick()`

```
void com.progmethgame.client.ClientEntity.tick (
    float delta )
```

Animate this entity by specific time-step

#### Parameters

<i>delta</i>	time duration
--------------	---------------

### 5.20.3.6 `update()`

```
void com.progmethgame.client.ClientEntity.update (
    EntityData data )
```

Update this entity's state using EntityData

#### Parameters

<i>data</i>	updated data
-------------	--------------

## 5.20.4 Member Data Documentation

### 5.20.4.1 gid

UUID `com.progmethgame.client.ClientEntity.gid` [private]

ID of this entity. This is unique to all entity and is used to communicate with the server

### 5.20.4.2 lastDirBuffer

Vector2 [] `com.progmethgame.client.ClientEntity.lastDirBuffer` [private]

Facing direction according to the server (storing the last 2) (doesn't interpolate)

### 5.20.4.3 lastPosBuffer

Vector2 [] `com.progmethgame.client.ClientEntity.lastPosBuffer` [private]

Most recent position of this entity according to the server (for interpolation)

### 5.20.4.4 lastUpdateTimeBuffer

long [] `com.progmethgame.client.ClientEntity.lastUpdateTimeBuffer` [private]

Most recent time this entity was updated (for interpolation)

### 5.20.4.5 overlays

List<Overlay> `com.progmethgame.client.ClientEntity.overlays` [private]

Overlays attached to this entity

### 5.20.4.6 type

DisplayType `com.progmethgame.client.ClientEntity.type` [private]

Texture to display

The documentation for this class was generated from the following file:

- `/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/client/ClientEntity.java`

## 5.21 com.progmethgame.network.event.base.ClientEvent Class Reference

Inheritance diagram for com.progmethgame.network.event.base.ClientEvent:

### Public Attributes

- UUID [clientId](#)

### Additional Inherited Members

#### 5.21.1 Detailed Description

Event emitted from the game clients

#### 5.21.2 Member Data Documentation

##### 5.21.2.1 clientId

UUID `com.progmethgame.network.event.base.ClientEvent.clientId`

ID of the client connection who emitted this event

The documentation for this class was generated from the following file:

- `/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/network/event/base/ClientEvent.java`

## 5.22 com.progmethgame.network.event.client.ClientJoinEvent Class Reference

Inheritance diagram for com.progmethgame.network.event.client.ClientJoinEvent:

## Public Member Functions

- void [notifyListener](#) ([ServerBusListener](#) target)

## Additional Inherited Members

### 5.22.1 Detailed Description

Client connect to the server

### 5.22.2 Member Function Documentation

#### 5.22.2.1 notifyListener()

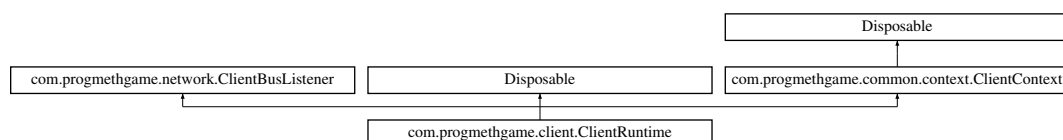

```
void com.progmethgame.network.event.client.ClientJoinEvent.notifyListener (
    ServerBusListener target )
```

The documentation for this class was generated from the following file:

- /home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/network/event/client/ClientJoinEvent.java

## 5.23 com.progmethgame.client.ClientRuntime Class Reference

Inheritance diagram for com.progmethgame.client.ClientRuntime:

## Public Member Functions

- [ClientRuntime](#) (String ipaddr)
- Map< UUID, [ClientEntity](#) > [getEntities](#) ()
- AssetManager [getAssetManager](#) ()
- [ClientBus](#) [getNetworkBus](#) ()
- UUID [getClientUUID](#) ()
- void [onEntityAdd](#) ([EntityData](#) data)
- void [onEntityRemove](#) (UUID id)
- void [onEntityUpdate](#) ([EntityData](#) data)
- void [onServerReady](#) (UUID assignedId)
- void [onServerReset](#) ()
- void [tick](#) (float delta)
- void [dispose](#) ()
- void [onDisconnect](#) ()
- void [quit](#) ()
- void [onPlaySound](#) ([SoundType](#) sound)

## Private Member Functions

- void [initAssets](#) ()

## Private Attributes

- [GameScreen](#) `screen`
- UUID `clientId`
- [ClientBus](#) `bus`
- `HashMap< UUID, ClientEntity >` `entities`
- `AssetManager` `assetsMan`

### 5.23.1 Detailed Description

Store and manage the game's state

### 5.23.2 Constructor & Destructor Documentation

#### 5.23.2.1 ClientRuntime()

```
com.progmethgame.client.ClientRuntime.ClientRuntime (
    String ipaddr )
```

Create new runtime, connect to the server and display the game.

Parameters

<i>ipaddr</i>	server's IP address
---------------	---------------------

### 5.23.3 Member Function Documentation

#### 5.23.3.1 dispose()

```
void com.progmethgame.client.ClientRuntime.dispose ( )
```

### 5.23.3.2 `getAssetManager()`

```
AssetManager com.progmethgame.client.ClientRuntime.getAssetManager ( )
```

Get AssetManager

Returns

Implements [com.progmethgame.common.context.ClientContext](#).

### 5.23.3.3 `getClientUUID()`

```
UUID com.progmethgame.client.ClientRuntime.getClientUUID ( )
```

Return the UUID assigned by the server.

Note that Entity with the same UUID represent controllable character.

Implements [com.progmethgame.common.context.ClientContext](#).

### 5.23.3.4 `getEntities()`

```
Map<UUID, ClientEntity> com.progmethgame.client.ClientRuntime.getEntities ( )
```

Return unmodifiable list of all entities.

Implements [com.progmethgame.common.context.ClientContext](#).

### 5.23.3.5 `getNetworkBus()`

```
ClientBus com.progmethgame.client.ClientRuntime.getNetworkBus ( )
```

Get client-server's communication bus.

Returns

Implements [com.progmethgame.common.context.ClientContext](#).

### 5.23.3.6 initAssets()

```
void com.progmethgame.client.ClientRuntime.initAssets ( ) [private]
```

Initialize all assets required

### 5.23.3.7 onDisconnect()

```
void com.progmethgame.client.ClientRuntime.onDisconnect ( )
```

Called when server disconnect eg. Connection lost, Server closed

Implements [com.progmethgame.network.ClientBusListener](#).

### 5.23.3.8 onEntityAdd()

```
void com.progmethgame.client.ClientRuntime.onEntityAdd (
    EntityData data )
```

Server added an entity

#### Parameters

<i>data</i>	entity's data
-------------	---------------

Implements [com.progmethgame.network.ClientBusListener](#).

### 5.23.3.9 onEntityRemove()

```
void com.progmethgame.client.ClientRuntime.onEntityRemove (
    UUID id )
```

Server remove an entity

#### Parameters

<i>id</i>	entity's id
-----------	-------------

Implements [com.progmethgame.network.ClientBusListener](#).

### 5.23.3.10 onEntityUpdate()

```
void com.progmethgame.client.ClientRuntime.onEntityUpdate (
```

```
EntityData data )
```

Server update entity's data

#### Parameters

<i>data</i>	update data
-------------	-------------

Implements [com.progmethgame.network.ClientBusListener](#).

#### 5.23.3.11 onPlaySound()

```
void com.progmethgame.client.ClientRuntime.onPlaySound (
    SoundType sound )
```

Server wants to play a sound

#### Parameters

<i>sound</i>	
--------------	--

Implements [com.progmethgame.network.ClientBusListener](#).

#### 5.23.3.12 onServerReady()

```
void com.progmethgame.client.ClientRuntime.onServerReady (
    UUID assignedId )
```

Server have initialized the client and is now ready.

Always call after server finished sending entities and ready to display data.

#### Parameters

<i>assignedId</i>	ID assigned by the server
-------------------	---------------------------

Implements [com.progmethgame.network.ClientBusListener](#).

#### 5.23.3.13 onServerReset()

```
void com.progmethgame.client.ClientRuntime.onServerReset ( )
```

Server instruct client to clear all game state.

Always called first when client connect or level reset

Implements [com.progmethgame.network.ClientBusListener](#).

#### 5.23.3.14 quit()

```
void com.progmethgame.client.ClientRuntime.quit ( )
```

Quit the game and return to main screen.

Implements [com.progmethgame.common.context.ClientContext](#).

#### 5.23.3.15 tick()

```
void com.progmethgame.client.ClientRuntime.tick (
    float delta )
```

Apply time step by delta seconds.

Implements [com.progmethgame.common.context.ClientContext](#).

### 5.23.4 Member Data Documentation

#### 5.23.4.1 assetsMan

```
AssetManager com.progmethgame.client.ClientRuntime.assetsMan [private]
```

Assets loader

#### 5.23.4.2 bus

```
ClientBus com.progmethgame.client.ClientRuntime.bus [private]
```

Communication bus

#### 5.23.4.3 clientId

```
UUID com.progmethgame.client.ClientRuntime.clientId [private]
```

Client id assigned by the server. This is also the controllable player's entity UUID

#### 5.23.4.4 entities

```
HashMap<UUID, ClientEntity> com.progmethgame.client.ClientRuntime.entities [private]
```

Store entities

#### 5.23.4.5 screen

```
GameScreen com.progmethgame.client.ClientRuntime.screen [private]
```

Screen

The documentation for this class was generated from the following file:

- `/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/client/ClientRuntime.java`

## 5.24 com.progmethgame.server.entities.Player.Color Enum Reference

### Public Member Functions

- [DisplayType](#) `getTop ()`
- [DisplayType](#) `getFront ()`

### Public Attributes

- [BLUE](#) =([DisplayType.PLAYER\\_BLUE\\_ICON](#), [DisplayType.PLAYER\\_BLUE](#))
- [RED](#) =([DisplayType.PLAYER\\_RED\\_ICON](#), [DisplayType.PLAYER\\_RED](#))
- [GREEN](#) =([DisplayType.PLAYER\\_GREEN\\_ICON](#), [DisplayType.PLAYER\\_GREEN](#))
- [ORANGE](#) =([DisplayType.PLAYER\\_ORANGE\\_ICON](#), [DisplayType.PLAYER\\_ORANGE](#))
- [PURPLE](#) =([DisplayType.PLAYER\\_PURPLE\\_ICON](#), [DisplayType.PLAYER\\_PURPLE](#))
- [YELLOW](#) =([DisplayType.PLAYER\\_YELLOW\\_ICON](#), [DisplayType.PLAYER\\_YELLOW](#))

### Private Member Functions

- [Color](#) ([DisplayType front](#), [DisplayType top](#))

### Private Attributes

- [DisplayType top](#)
- [DisplayType front](#)

#### 5.24.1 Constructor & Destructor Documentation

### 5.24.1.1 Color()

```
com.progmethgame.server.entities.Player.Color.Color (
    DisplayType front,
    DisplayType top ) [private]
```

## 5.24.2 Member Function Documentation

### 5.24.2.1 getFront()

```
DisplayType com.progmethgame.server.entities.Player.Color.getFront ( )
```

### 5.24.2.2 getTop()

```
DisplayType com.progmethgame.server.entities.Player.Color.getTop ( )
```

## 5.24.3 Member Data Documentation

### 5.24.3.1 BLUE

```
com.progmethgame.server.entities.Player.Color.BLUE =(DisplayType.PLAYER_BLUE_ICON, DisplayType.PLAYER_BLUE)
```

### 5.24.3.2 front

```
DisplayType com.progmethgame.server.entities.Player.Color.front [private]
```

### 5.24.3.3 GREEN

```
com.progmethgame.server.entities.Player.Color.GREEN =(DisplayType.PLAYER_GREEN_ICON, DisplayType.PLAYER_GREEN)
```

#### 5.24.3.4 ORANGE

```
com.progmethgame.server.entities.Player.Color.ORANGE = (DisplayType.PLAYER_ORANGE_ICON, DisplayType.PLAYER_ORANGE)
```

#### 5.24.3.5 PURPLE

```
com.progmethgame.server.entities.Player.Color.PURPLE = (DisplayType.PLAYER_PURPLE_ICON, DisplayType.PLAYER_PURPLE)
```

#### 5.24.3.6 RED

```
com.progmethgame.server.entities.Player.Color.RED = (DisplayType.PLAYER_RED_ICON, DisplayType.PLAYER_RED)
```

#### 5.24.3.7 top

```
DisplayType com.progmethgame.server.entities.Player.Color.top [private]
```

#### 5.24.3.8 YELLOW

```
com.progmethgame.server.entities.Player.Color.YELLOW = (DisplayType.PLAYER_YELLOW_ICON, DisplayType.PLAYER_YELLOW)
```

The documentation for this enum was generated from the following file:

- `/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/server/entities/Player.java`↔

## 5.25 com.progmethgame.server.entities.effects.Confuse Class Reference

Inheritance diagram for com.progmethgame.server.entities.effects.Confuse:

## Public Member Functions

- [Confuse](#) ()
- void [getEffect](#) ([Player](#) p)
- void [removeEffect](#) ([Player](#) p)
- [Confuse](#) cpy ()

## Additional Inherited Members

### 5.25.1 Detailed Description

An effect that reverse the player's control

### 5.25.2 Constructor & Destructor Documentation

#### 5.25.2.1 Confuse()

```
com.progmethgame.server.entities.effects.Confuse.Confuse ( )
```

### 5.25.3 Member Function Documentation

#### 5.25.3.1 cpy()

```
Confuse com.progmethgame.server.entities.effects.Confuse.cpy ( )
```

Clone this effect

Reimplemented from [com.progmethgame.server.entities.effects.StatusEffect](#).

#### 5.25.3.2 getEffect()

```
void com.progmethgame.server.entities.effects.Confuse.getEffect (
    Player p )
```

Apply effect to the player

Reimplemented from [com.progmethgame.server.entities.effects.StatusEffect](#).

### 5.25.3.3 removeEffect()

```
void com.progmethgame.server.entities.effects.Confuse.removeEffect (
    Player p )
```

Remove effect from the player

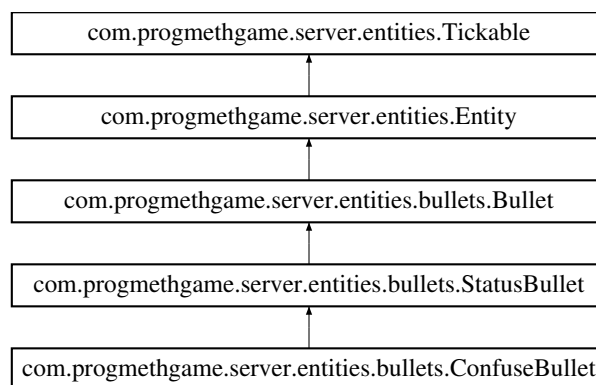

Reimplemented from [com.progmethgame.server.entities.effects.StatusEffect](#).

The documentation for this class was generated from the following file:

- [/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/server/entities/effects/Confuse.java](#)

## 5.26 com.progmethgame.server.entities.bullets.ConfuseBullet Class Reference

Inheritance diagram for com.progmethgame.server.entities.bullets.ConfuseBullet:

### Public Member Functions

- [ConfuseBullet](#) ([Player](#) owner)
- [Bullet](#) cpy ()

### Additional Inherited Members

### 5.26.1 Constructor & Destructor Documentation

#### 5.26.1.1 ConfuseBullet()

```
com.progmethgame.server.entities.bullets.ConfuseBullet.ConfuseBullet (
    Player owner )
```

## 5.26.2 Member Function Documentation

### 5.26.2.1 cpy()

`Bullet` `com.progmethgame.server.entities.bullets.ConfuseBullet.cpy ( )`

Duplicate this bullet

Reimplemented from [com.progmethgame.server.entities.bullets.Bullet](#).

The documentation for this class was generated from the following file:

- `/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/server/entities/bullets/ConfuseBullet.java`

## 5.27 com.progmethgame.server.entities.guns.ConfuseGun Class Reference

Inheritance diagram for `com.progmethgame.server.entities.guns.ConfuseGun`:

### Public Member Functions

- [ConfuseGun](#) (Player owner)

### Additional Inherited Members

#### 5.27.1 Detailed Description

`Gun` that spawn confuse bullet

#### 5.27.2 Constructor & Destructor Documentation

### 5.27.2.1 ConfuseGun()

```
com.progmethgame.server.entities.guns.ConfuseGun.ConfuseGun (
    Player owner )
```

The documentation for this class was generated from the following file:

- /home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/server/entities/guns/ConfuseGun.java

## 5.28 com.progmethgame.launcher.screen.ConnectStage Class Reference

Inheritance diagram for com.progmethgame.launcher.screen.ConnectStage:

### Public Member Functions

- [ConnectStage](#) ()
- void [draw](#) ()
- void [dispose](#) ()

### Private Attributes

- Texture [background](#)
- Viewport [bgView](#)

### Additional Inherited Members

### 5.28.1 Detailed Description

Display connection and main menu dialog

### 5.28.2 Constructor & Destructor Documentation

### 5.28.2.1 ConnectStage()

```
com.progmethgame.launcher.screen.ConnectStage.ConnectStage ( )
```

Create a new connect stage

## 5.28.3 Member Function Documentation

### 5.28.3.1 dispose()

```
void com.progmethgame.launcher.screen.ConnectStage.dispose ( )
```

### 5.28.3.2 draw()

```
void com.progmethgame.launcher.screen.ConnectStage.draw ( )
```

## 5.28.4 Member Data Documentation

### 5.28.4.1 background

```
Texture com.progmethgame.launcher.screen.ConnectStage.background [private]
```

Background texture

### 5.28.4.2 bgView

```
Viewport com.progmethgame.launcher.screen.ConnectStage.bgView [private]
```

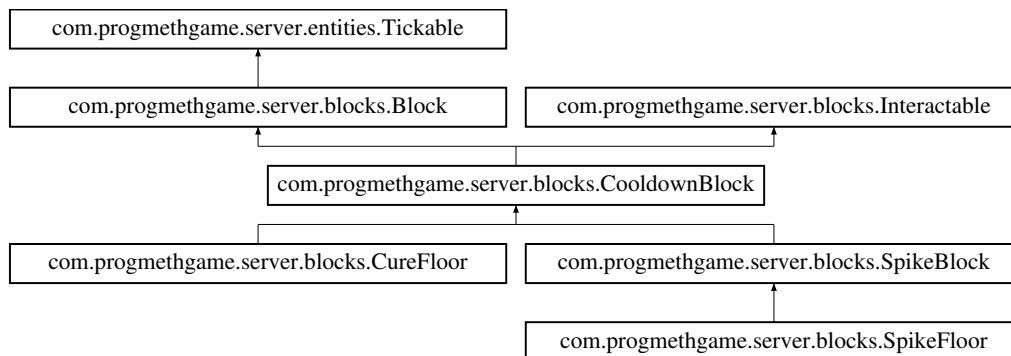

Background's viewport

The documentation for this class was generated from the following file:

- `/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/launcher/screen/ConnectStage.java`

## 5.29 com.progmethgame.server.blocks.CooldownBlock Class Reference

Inheritance diagram for com.progmethgame.server.blocks.CooldownBlock:

### Public Member Functions

- [CooldownBlock](#) ()
- void [interact](#) ([Player](#) p)
- void [tick](#) (float delta)

### Protected Member Functions

- abstract void [applyEffect](#) ([Player](#) p)

### Static Protected Attributes

- static final int [maxCooldown](#) = 5

### Private Attributes

- int [cooldown](#)
- int [tickCount](#)

#### 5.29.1 Detailed Description

A block that have "cooldown" on its effect

Author

pigt

#### 5.29.2 Constructor & Destructor Documentation

### 5.29.2.1 CooldownBlock()

```
com.progmethgame.server.blocks.CooldownBlock.CooldownBlock ( )
```

## 5.29.3 Member Function Documentation

### 5.29.3.1 applyEffect()

```
abstract void com.progmethgame.server.blocks.CooldownBlock.applyEffect (
    Player p ) [abstract], [protected]
```

Reimplemented in [com.progmethgame.server.blocks.SpikeBlock](#), and [com.progmethgame.server.blocks.CureFloor](#).

### 5.29.3.2 interact()

```
void com.progmethgame.server.blocks.CooldownBlock.interact (
    Player p )
```

Implements [com.progmethgame.server.blocks.Interactable](#).

### 5.29.3.3 tick()

```
void com.progmethgame.server.blocks.CooldownBlock.tick (
    float delta )
```

Advance this component by delta second

#### Parameters

<i>delta</i>	no. of second to advance
--------------	--------------------------

Reimplemented from [com.progmethgame.server.blocks.Block](#).

## 5.29.4 Member Data Documentation

### 5.29.4.1 cooldown

```
int com.progmethgame.server.blocks.CooldownBlock.cooldown [private]
```

Number of second before block is active again

#### 5.29.4.2 maxCooldown

```
final int com.progmethgame.server.blocks.CooldownBlock.maxCooldown = 5 [static], [protected]
```

Cooldown interval (second)

#### 5.29.4.3 tickCount

```
int com.progmethgame.server.blocks.CooldownBlock.tickCount [private]
```

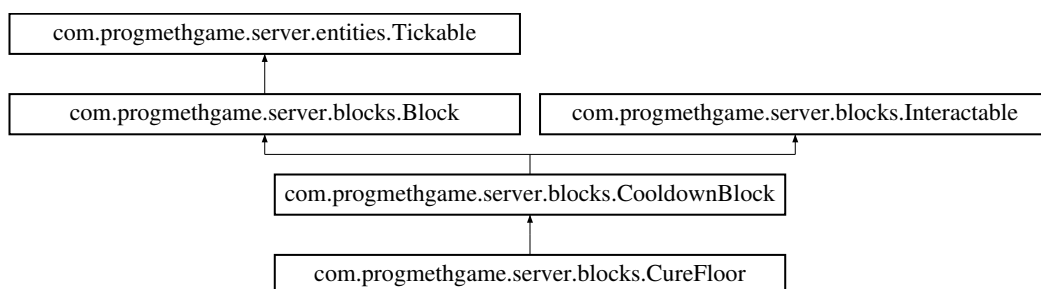

Number of tick after last cooldown decrement

The documentation for this class was generated from the following file:

- `/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/server/blocks/CooldownBlock.java`

## 5.30 com.progmethgame.server.blocks.CureFloor Class Reference

Inheritance diagram for com.progmethgame.server.blocks.CureFloor:

### Public Member Functions

- [CureFloor](#) ()
- boolean [isSolid](#) ()

### Protected Member Functions

- void [applyEffect](#) ([Player](#) p)

### Additional Inherited Members

#### 5.30.1 Detailed Description

A floor block that remove status effect from the player

Author

pigt

## 5.30.2 Constructor & Destructor Documentation

### 5.30.2.1 CureFloor()

```
com.progmethgame.server.blocks.CureFloor.CureFloor ( )
```

## 5.30.3 Member Function Documentation

### 5.30.3.1 applyEffect()

```
void com.progmethgame.server.blocks.CureFloor.applyEffect (
    Player p ) [protected]
```

Reimplemented from [com.progmethgame.server.blocks.CooldownBlock](#).

### 5.30.3.2 isSolid()

```
boolean com.progmethgame.server.blocks.CureFloor.isSolid ( )
```

Can entity pass through this block?

#### Returns

solidness

Reimplemented from [com.progmethgame.server.blocks.Block](#).

The documentation for this class was generated from the following file:

- /home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/server/blocks/Cure↵  
Floor.java

### 5.31.1 Detailed Description

Represent textures available on the client.

### 5.31.2 Constructor & Destructor Documentation

#### 5.31.2.1 DisplayType()

```
com.progmethgame.common.DisplayType.DisplayType (
    String filename ) [private]
```

Create new [DisplayType](#)

## Parameters

<i>filename</i>	path to texture's file
-----------------	------------------------

### 5.31.3 Member Function Documentation

#### 5.31.3.1 filename()

```
String com.progmethgame.common.DisplayType.filename ( )
```

Get texture's file path.

Returns

### 5.31.4 Member Data Documentation

#### 5.31.4.1 BULLET\_BURN

```
com.progmethgame.common.DisplayType.BULLET_BURN = ("bullets/burnbullet.png")
```

#### 5.31.4.2 BULLET\_CONFUSE

```
com.progmethgame.common.DisplayType.BULLET_CONFUSE = ("bullets/confusebullet.png")
```

#### 5.31.4.3 BULLET\_HOOK

```
com.progmethgame.common.DisplayType.BULLET_HOOK = ("bullets/hookbullet.png")
```

#### 5.31.4.4 BULLET\_SLOW

```
com.progmethgame.common.DisplayType.BULLET_SLOW = ("bullets/slowbullet.png")
```

#### 5.31.4.5 BULLET\_STUNT

```
com.progmethgame.common.DisplayType.BULLET_STUNT = ("bullets/stuntbullet.png")
```

#### 5.31.4.6 BULLET\_TELEPORT

```
com.progmethgame.common.DisplayType.BULLET_TELEPORT = ("bullets/teleportbullet.png")
```

#### 5.31.4.7 EFFECT\_BURN

```
com.progmethgame.common.DisplayType.EFFECT_BURN = ("effects/burn.png")
```

#### 5.31.4.8 EFFECT\_CONFUSE

```
com.progmethgame.common.DisplayType.EFFECT_CONFUSE = ("effects/confuse.png")
```

#### 5.31.4.9 EFFECT\_SLOW

```
com.progmethgame.common.DisplayType.EFFECT_SLOW = ("effects/slow.png")
```

#### 5.31.4.10 EFFECT\_STUNT

```
com.progmethgame.common.DisplayType.EFFECT_STUNT = ("effects/stunt.png")
```

#### 5.31.4.11 filename

```
final String com.progmethgame.common.DisplayType.filename [private]
```

Location of the file associated with this [DisplayType](#)

#### 5.31.4.12 PLAYER

```
com.progmethgame.common.DisplayType.PLAYER = ("player.png")
```

#### 5.31.4.13 PLAYER\_BLUE

```
com.progmethgame.common.DisplayType.PLAYER_BLUE = ("players/TopBlue.png")
```

#### 5.31.4.14 PLAYER\_BLUE\_ICON

```
com.progmethgame.common.DisplayType.PLAYER_BLUE_ICON = ("players/Blue.png")
```

#### 5.31.4.15 PLAYER\_GREEN

```
com.progmethgame.common.DisplayType.PLAYER_GREEN = ("players/TopGreen.png")
```

#### 5.31.4.16 PLAYER\_GREEN\_ICON

```
com.progmethgame.common.DisplayType.PLAYER_GREEN_ICON = ("players/Green.png")
```

#### 5.31.4.17 PLAYER\_ORANGE

```
com.progmethgame.common.DisplayType.PLAYER_ORANGE = ("players/TopOrange.png")
```

#### 5.31.4.18 PLAYER\_ORANGE\_ICON

```
com.progmethgame.common.DisplayType.PLAYER_ORANGE_ICON = ("players/Orange.png")
```

#### 5.31.4.19 PLAYER\_PURPLE

```
com.progmethgame.common.DisplayType.PLAYER_PURPLE = ("players/TopPurple.png")
```

#### 5.31.4.20 PLAYER\_PURPLE\_ICON

```
com.progmethgame.common.DisplayType.PLAYER_PURPLE_ICON = ("players/Purple.png")
```

#### 5.31.4.21 PLAYER\_RED

```
com.progmethgame.common.DisplayType.PLAYER_RED = ("players/TopRed.png")
```

#### 5.31.4.22 PLAYER\_RED\_ICON

```
com.progmethgame.common.DisplayType.PLAYER_RED_ICON = ("players/Red.png")
```

#### 5.31.4.23 PLAYER\_YELLOW

```
com.progmethgame.common.DisplayType.PLAYER_YELLOW = ("players/TopYellow.png")
```

#### 5.31.4.24 PLAYER\_YELLOW\_ICON

```
com.progmethgame.common.DisplayType.PLAYER_YELLOW_ICON = ("players/Yellow.png")
```

#### 5.31.4.25 POTION

```
com.progmethgame.common.DisplayType.POTION = ("potion.png")
```

#### 5.31.4.26 RICK

```
com.progmethgame.common.DisplayType.RICK = ("rick.png")
```

#### 5.31.4.27 SMALLCUBE

```
com.progmethgame.common.DisplayType.SMALLCUBE = ("smallcube.png")
```

#### 5.31.4.28 SMALLCUBEEX

```
com.progmethgame.common.DisplayType.SMALLCUBEEX = ("smallcubeexcited.png")
```

#### 5.31.4.29 TEST

```
com.progmethgame.common.DisplayType.TEST = ("test.png")
```

The documentation for this enum was generated from the following file:

- /home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/common/DisplayType.java

## 5.32 com.progmethgame.server.entities.effects.EffectConfig Class Reference

### Static Public Attributes

- static final int [BURN\\_MAX\\_DURATION](#) = 4
- static final int [BURN\\_DPS](#) = 2
- static final int [CONFUSE\\_MAX\\_DURATION](#) = 3
- static final int [SLOW\\_MAX\\_DURATION](#) = 5
- static final float [SLOW\\_RATE](#) = 0.5f
- static final int [STUNT\\_MAX\\_DURATION](#) = 1

### 5.32.1 Detailed Description

A class storing effect's config

### 5.32.2 Member Data Documentation

#### 5.32.2.1 BURN\_DPS

```
final int com.progmethgame.server.entities.effects.EffectConfig.BURN_DPS = 2 [static]
```

[Burn](#) damage per second

#### 5.32.2.2 BURN\_MAX\_DURATION

```
final int com.progmethgame.server.entities.effects.EffectConfig.BURN_MAX_DURATION = 4 [static]
```

[Burn](#) duration

#### 5.32.2.3 CONFUSE\_MAX\_DURATION

```
final int com.progmethgame.server.entities.effects.EffectConfig.CONFUSE_MAX_DURATION = 3 [static]
```

[Confuse](#) duration

## Protected Attributes

- Vector2 [position](#)
- Vector2 [velocity](#)
- [DisplayType](#) [type](#)
- final UUID [gid](#)
- ArrayList< [Overlay](#) > [overlays](#)
- Vector2 [facingDirection](#)

### 5.33.1 Detailed Description

Represent a logical entity on the server

### 5.33.2 Constructor & Destructor Documentation

#### 5.33.2.1 Entity() [1/2]

```
com.progmethgame.server.entities.Entity.Entity (
    UUID gid,
    DisplayType type )
```

Create a new entity with specified ID and type

Parameters

<i>gid</i>	
<i>type</i>	

#### 5.33.2.2 Entity() [2/2]

```
com.progmethgame.server.entities.Entity.Entity (
    DisplayType type )
```

Create a new entity with specified type and a random id

Parameters

<i>type</i>	
-------------	--

### 5.33.3 Member Function Documentation

#### 5.33.3.1 equals()

```
boolean com.progmethgame.server.entities.Entity.equals (
    Object obj )
```

#### 5.33.3.2 getData()

```
EntityData com.progmethgame.server.entities.Entity.getData ( )
```

Parse the graphical rendering data for sending accross the network

##### Returns

EntityData

#### 5.33.3.3 getGid()

```
UUID com.progmethgame.server.entities.Entity.getGid ( )
```

Get the entity's id

#### 5.33.3.4 getPhysicalSize()

```
float com.progmethgame.server.entities.Entity.getPhysicalSize ( )
```

Return physical size for physic engine's [onCollide\(Entity\)](#) calculation.

Size in this case is the side length of the bounding square. The bounding box has the same center as the default bound.

Reimplemented in [com.progmethgame.server.entities.bullets.Bullet](#), and [com.progmethgame.server.entities.SmallTestEntity](#).

#### 5.33.3.5 getPosition()

```
Vector2 com.progmethgame.server.entities.Entity.getPosition ( )
```

Get the position

#### 5.33.3.6 getType()

```
DisplayType com.progmethgame.server.entities.Entity.getType ( )
```

Get the display type

### 5.33.3.7 getVelocity()

```
Vector2 com.progmethgame.server.entities.Entity.getVelocity ( )
```

Get the velocity

Returns

### 5.33.3.8 hashCode()

```
int com.progmethgame.server.entities.Entity.hashCode ( )
```

### 5.33.3.9 onCollide()

```
void com.progmethgame.server.entities.Entity.onCollide (
    Entity other )
```

Called when entity touched other.

Parameters

<i>other</i>	the touched entity
--------------	--------------------

Reimplemented in [com.progmethgame.server.entities.bullets.Bullet](#), and [com.progmethgame.server.entities.TestEntity](#).

### 5.33.3.10 onCollideSolid()

```
void com.progmethgame.server.entities.Entity.onCollideSolid (
    Block block )
```

Call when entity hit solid block

Parameters

<i>block</i>	the block that this entity collided with
--------------	--

Reimplemented in [com.progmethgame.server.entities.Player](#), and [com.progmethgame.server.entities.bullets.Bullet](#).

### 5.33.3.11 onWalkOn()

```
void com.progmethgame.server.entities.Entity.onWalkOn (
    Block block )
```

Called when walked on the block

#### Parameters

<i>block</i>	the block that got walked on
--------------	------------------------------

Reimplemented in [com.progmethgame.server.entities.Player](#).

### 5.33.3.12 setDisplay()

```
void com.progmethgame.server.entities.Entity.setDisplay (
    DisplayType t )
```

Change the display type

#### Parameters

<i>t</i>	
----------	--

### 5.33.3.13 tick()

```
void com.progmethgame.server.entities.Entity.tick (
    float delta )
```

Advance this component by delta second

#### Parameters

<i>delta</i>	no. of second to advance
--------------	--------------------------

Implements [com.progmethgame.server.entities.Tickable](#).

Reimplemented in [com.progmethgame.server.entities.Player](#), [com.progmethgame.server.entities.bullets.Bullet](#), [com.progmethgame.server.entities.TestEntity](#), and [com.progmethgame.server.entities.SpinningEntity](#).

## 5.33.4 Member Data Documentation

#### 5.33.4.1 facingDirection

`Vector2 com.progmethgame.server.entities.Entity.facingDirection` [protected]

Facing direction

#### 5.33.4.2 gid

`final UUID com.progmethgame.server.entities.Entity.gid` [protected]

ID

#### 5.33.4.3 overlays

`ArrayList<Overlay> com.progmethgame.server.entities.Entity.overlays` [protected]

Overlays attached

#### 5.33.4.4 position

`Vector2 com.progmethgame.server.entities.Entity.position` [protected]

Position

#### 5.33.4.5 type

`DisplayType com.progmethgame.server.entities.Entity.type` [protected]

Displayed type

#### 5.33.4.6 velocity

`Vector2 com.progmethgame.server.entities.Entity.velocity` [protected]

Velocity

The documentation for this class was generated from the following file:

- `/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/server/entities/Entity.java` ↩

## 5.34 com.progmethgame.common.EntityData Class Reference

### Public Attributes

- UUID `id`
- `DisplayType` `dispType`
- `Vector2` `position`
- `Vector2` `facingDirection`
- `ArrayList< Overlay >` `overlays`

### 5.34.1 Detailed Description

Data structure representing networked entity.

### 5.34.2 Member Data Documentation

#### 5.34.2.1 dispType

`DisplayType` `com.progmethgame.common.EntityData.dispType`

#### 5.34.2.2 facingDirection

`Vector2` `com.progmethgame.common.EntityData.facingDirection`

#### 5.34.2.3 id

`UUID` `com.progmethgame.common.EntityData.id`

#### 5.34.2.4 overlays

`ArrayList<Overlay>` `com.progmethgame.common.EntityData.overlays`

#### 5.34.2.5 position

`Vector2` `com.progmethgame.common.EntityData.position`

The documentation for this class was generated from the following file:

- `/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/common/Entity↔Data.java`

## 5.35 com.progmethgame.common.GameConfig Class Reference

### Static Public Attributes

- static float [SERVER\\_TICK\\_RATE](#) = 1/30f
- static int [CLIENT\\_ENTITY\\_INTERPOLATION\\_TIME\\_MILLIS](#) = (int) ([SERVER\\_TICK\\_RATE](#) \*1000)
- static int [SERVER\\_MAX\\_PACKET](#) = 20
- static float [AUDIO\\_VOLUME](#) = 0.50f
- static int [CLIENT\\_MAP\\_VIEWPORT\\_SIZE](#) = 20
- static String [MAP\\_FILEPATH](#) = "map/map.tmx"
- static int [SERVER\\_GAMEOVER\\_TIMER](#) = (int) (5/[SERVER\\_TICK\\_RATE](#))

### 5.35.1 Detailed Description

Game's configuration and constants.

### 5.35.2 Member Data Documentation

#### 5.35.2.1 [AUDIO\\_VOLUME](#)

```
float com.progmethgame.common.GameConfig.AUDIO_VOLUME = 0.50f [static]
```

Music and Sound's volume

#### 5.35.2.2 [CLIENT\\_ENTITY\\_INTERPOLATION\\_TIME\\_MILLIS](#)

```
int com.progmethgame.common.GameConfig.CLIENT_ENTITY_INTERPOLATION_TIME_MILLIS = (int) (SERVER\_TICK\_RATE *1000) [static]
```

Delay duration for entity interpolation

#### 5.35.2.3 [CLIENT\\_MAP\\_VIEWPORT\\_SIZE](#)

```
int com.progmethgame.common.GameConfig.CLIENT_MAP_VIEWPORT_SIZE = 20 [static]
```

Width and Height of client's map viewport

#### 5.35.2.4 [MAP\\_FILEPATH](#)

```
String com.progmethgame.common.GameConfig.MAP_FILEPATH = "map/map.tmx" [static]
```

Map file's location

#### 5.35.2.5 SERVER\_GAMEOVER\_TIMER

```
int com.progmethgame.common.GameConfig.SERVER_GAMEOVER_TIMER = (int) (5/SERVER\_TICK\_RATE)  
[static]
```

#### 5.35.2.6 SERVER\_MAX\_PACKET

```
int com.progmethgame.common.GameConfig.SERVER_MAX_PACKET = 20 [static]
```

Max event to send in a single packet

#### 5.35.2.7 SERVER\_TICK\_RATE

```
float com.progmethgame.common.GameConfig.SERVER_TICK_RATE = 1/30f [static]
```

Server update rate (Hz)

The documentation for this class was generated from the following file:

- [/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/common/GameConfig.java](#)

### 5.36 com.progmethgame.common.context.GameContext Class Reference

#### Static Public Member Functions

- static void [setServerContext](#) ([ServerContext](#) ctx)
- static void [setClientContext](#) ([ClientContext](#) ctx)
- static [ServerContext](#) [getServerContext](#) ()
- static [ClientContext](#) [getClientContext](#) ()

#### Private Member Functions

- [GameContext](#) ()

#### Static Private Attributes

- static [ServerContext](#) [serverCtx](#)
- static [ClientContext](#) [clientCtx](#)

#### 5.36.1 Detailed Description

Store global game context ie. [ServerContext](#) and [ClientContext](#)

## 5.36.2 Constructor & Destructor Documentation

### 5.36.2.1 GameContext()

```
com.progmethgame.common.context.GameContext.GameContext ( ) [private]
```

## 5.36.3 Member Function Documentation

### 5.36.3.1 getClientContext()

```
static ClientContext com.progmethgame.common.context.GameContext.getClientContext ( ) [static]
```

Get current client context

Returns

### 5.36.3.2 getServerContext()

```
static ServerContext com.progmethgame.common.context.GameContext.getServerContext ( ) [static]
```

Get current server context

Returns

### 5.36.3.3 setClientContext()

```
static void com.progmethgame.common.context.GameContext.setClientContext (
    ClientContext ctx ) [static]
```

Set the global client context.

Parameters

<i>ctx</i>	
------------	--

#### 5.36.3.4 setServerContext()

```
static void com.progmethgame.common.context.GameContext.setServerContext (
    ServerContext ctx ) [static]
```

Set the global server context.

##### Parameters

<i>ctx</i>	
------------	--

### 5.36.4 Member Data Documentation

#### 5.36.4.1 clientCtx

```
ClientContext com.progmethgame.common.context.GameContext.clientCtx [static], [private]
```

Client context

#### 5.36.4.2 serverCtx

```
ServerContext com.progmethgame.common.context.GameContext.serverCtx [static], [private]
```

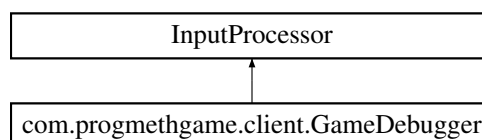

Server context

The documentation for this class was generated from the following file:

- `/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/common/context/GameContext.java`

## 5.37 com.progmethgame.client.GameDebugger Class Reference

Inheritance diagram for com.progmethgame.client.GameDebugger:

## Public Member Functions

- void [render](#) (Batch batch, Viewport hudViewport)
- boolean [keyDown](#) (int keycode)
- boolean [keyUp](#) (int keycode)
- boolean [keyTyped](#) (char character)
- boolean [touchDown](#) (int screenX, int screenY, int pointer, int button)
- boolean [touchUp](#) (int screenX, int screenY, int pointer, int button)
- boolean [touchDragged](#) (int screenX, int screenY, int pointer)
- boolean [mouseMoved](#) (int screenX, int screenY)
- boolean [scrolled](#) (int amount)

## Private Member Functions

- void [sendDebug](#) ()

## Private Attributes

- boolean [activated](#) = false
- String [command](#) = ""
- ArrayList< String > [history](#) = new ArrayList<String>()
- int [histPtr](#)

### 5.37.1 Detailed Description

Debugging Interface. Provides debugging command line's rendering, input, and networking component.

### 5.37.2 Member Function Documentation

#### 5.37.2.1 [keyDown\(\)](#)

```
boolean com.progmethgame.client.GameDebugger.keyDown (  
    int keycode )
```

#### 5.37.2.2 [keyTyped\(\)](#)

```
boolean com.progmethgame.client.GameDebugger.keyTyped (  
    char character )
```

### 5.37.2.3 keyUp()

```
boolean com.progmethgame.client.GameDebugger.keyUp (
    int keycode )
```

### 5.37.2.4 mouseMoved()

```
boolean com.progmethgame.client.GameDebugger.mouseMoved (
    int screenX,
    int screenY )
```

### 5.37.2.5 render()

```
void com.progmethgame.client.GameDebugger.render (
    Batch batch,
    Viewport hudViewport )
```

Render the debugger's UI

#### Parameters

<i>batch</i>	screen's batch
<i>hudViewport</i>	screen's viewport

### 5.37.2.6 scrolled()

```
boolean com.progmethgame.client.GameDebugger.scrolled (
    int amount )
```

### 5.37.2.7 sendDebug()

```
void com.progmethgame.client.GameDebugger.sendDebug ( ) [private]
```

Send current command to the server

### 5.37.2.8 touchDown()

```
boolean com.progmethgame.client.GameDebugger.touchDown (
    int screenX,
    int screenY,
    int pointer,
    int button )
```

### 5.37.2.9 touchDragged()

```
boolean com.progmethgame.client.GameDebugger.touchDragged (
    int screenX,
    int screenY,
    int pointer )
```

### 5.37.2.10 touchUp()

```
boolean com.progmethgame.client.GameDebugger.touchUp (
    int screenX,
    int screenY,
    int pointer,
    int button )
```

## 5.37.3 Member Data Documentation

### 5.37.3.1 activated

```
boolean com.progmethgame.client.GameDebugger.activated = false [private]
```

Debugger is activated by user?

### 5.37.3.2 command

```
String com.progmethgame.client.GameDebugger.command = "" [private]
```

Current command text field

### 5.37.3.3 history

```
ArrayList<String> com.progmethgame.client.GameDebugger.history = new ArrayList<String>()
[private]
```

Command history

### 5.37.3.4 histPtr

```
int com.progmethgame.client.GameDebugger.histPtr [private]
```

Index of command selected by the user relative to the rear

The documentation for this class was generated from the following file:

- `/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/client/GameDebugger.java`

## 5.38 com.progmethgame.network.event.base.GameEvent< T > Class Template Reference

### Public Member Functions

- abstract void [notifyListener](#) (T target)

### 5.38.1 Detailed Description

Game's network event

### 5.38.2 Member Function Documentation

#### 5.38.2.1 notifyListener()

```
abstract void com.progmethgame.network.event.base.GameEvent< T >.notifyListener (
    T target ) [abstract]
```

Notify the listener of this event

#### Parameters

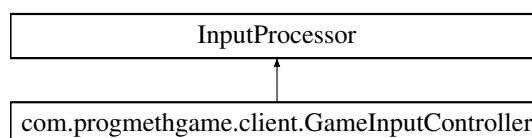

<i>target</i>	The listener who listen to this event.
---------------	--

The documentation for this class was generated from the following file:

- /home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/network/event/base/GameEvent.java

## 5.39 com.progmethgame.client.GameInputController Class Reference

Inheritance diagram for com.progmethgame.client.GameInputController:

## Public Member Functions

- [GameInputController](#) ()
- boolean [keyDown](#) (int keycode)
- boolean [keyUp](#) (int keycode)
- boolean [keyTyped](#) (char character)
- boolean [touchDown](#) (int screenX, int screenY, int pointer, int button)
- boolean [touchUp](#) (int screenX, int screenY, int pointer, int button)
- boolean [touchDragged](#) (int screenX, int screenY, int pointer)
- boolean [mouseMoved](#) (int screenX, int screenY)
- boolean [scrolled](#) (int amount)

## Private Member Functions

- void [notifyMovement](#) ()

## Private Attributes

- final Vector2 [movementVec](#)

### 5.39.1 Detailed Description

Game's input device processor

### 5.39.2 Constructor & Destructor Documentation

#### 5.39.2.1 GameInputController()

```
com.progmethgame.client.GameInputController.GameInputController ( )
```

Initialize controller

### 5.39.3 Member Function Documentation

#### 5.39.3.1 keyDown()

```
boolean com.progmethgame.client.GameInputController.keyDown (
    int keycode )
```

### 5.39.3.2 keyTyped()

```
boolean com.progmethgame.client.GameInputController.keyTyped (
    char character )
```

### 5.39.3.3 keyUp()

```
boolean com.progmethgame.client.GameInputController.keyUp (
    int keycode )
```

### 5.39.3.4 mouseMoved()

```
boolean com.progmethgame.client.GameInputController.mouseMoved (
    int screenX,
    int screenY )
```

### 5.39.3.5 notifyMovement()

```
void com.progmethgame.client.GameInputController.notifyMovement ( ) [private]
```

Notify direction vector changes to the server

### 5.39.3.6 scrolled()

```
boolean com.progmethgame.client.GameInputController.scrolled (
    int amount )
```

### 5.39.3.7 touchDown()

```
boolean com.progmethgame.client.GameInputController.touchDown (
    int screenX,
    int screenY,
    int pointer,
    int button )
```

**5.39.3.8 touchDragged()**

```
boolean com.progmethgame.client.GameInputController.touchDragged (
    int screenX,
    int screenY,
    int pointer )
```

**5.39.3.9 touchUp()**

```
boolean com.progmethgame.client.GameInputController.touchUp (
    int screenX,
    int screenY,
    int pointer,
    int button )
```

**5.39.4 Member Data Documentation****5.39.4.1 movementVec**

```
final Vector2 com.progmethgame.client.GameInputController.movementVec [private]
```

Player's movement direction vector

The documentation for this class was generated from the following file:

- /home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/client/GameInputController.java

**5.40 com.progmethgame.launcher.GameLauncher Class Reference**

Inheritance diagram for com.progmethgame.launcher.GameLauncher:

## Public Member Functions

- void [create](#) ()
- void [connect](#) (String ipaddr)
- void [displayStage](#) (Stage stage)
- void [displayMessage](#) (String message)
- void [displayMessageQuitable](#) (String message)
- void [displayError](#) (Throwable error)
- void [displayWelcomeScreen](#) ()
- void [dispose](#) ()

## Static Public Member Functions

- static [GameLauncher](#) [getLauncher](#) ()

## Private Member Functions

- void [cleanUpContext](#) ()

## Private Attributes

- [StageScreen](#) [stageScreen](#)

## Static Private Attributes

- static [GameLauncher](#) [launcher](#)

### 5.40.1 Detailed Description

Provides user interface for creation and termination of the game.

Note: There's only *one* launcher.

### 5.40.2 Member Function Documentation

#### 5.40.2.1 [cleanUpContext\(\)](#)

```
void com.progmethgame.launcher.GameLauncher.cleanUpContext ( ) [private]
```

Cleanup all the context created.

#### 5.40.2.2 [connect\(\)](#)

```
void com.progmethgame.launcher.GameLauncher.connect (
    String ipaddr )
```

Connect to the server and start the game

## Parameters

<i>ipaddr</i>	IP address of the server. if null then local server will be started
---------------	---

**5.40.2.3 create()**

```
void com.progmethgame.launcher.GameLauncher.create ( )
```

**5.40.2.4 displayError()**

```
void com.progmethgame.launcher.GameLauncher.displayError (
    Throwable error )
```

Display error message

## Parameters

<i>error</i>	
--------------	--

**5.40.2.5 displayMessage()**

```
void com.progmethgame.launcher.GameLauncher.displayMessage (
    String message )
```

Display message

## Parameters

<i>message</i>	
----------------	--

**5.40.2.6 displayMessageQuitable()**

```
void com.progmethgame.launcher.GameLauncher.displayMessageQuitable (
    String message )
```

Display message with with a button to go back to the launcher screen

## Parameters

<i>message</i>	
----------------	--

**5.40.2.7 displayStage()**

```
void com.progmethgame.launcher.GameLauncher.displayStage (
    Stage stage )
```

Display scene2d stage

**5.40.2.8 displayWelcomeScreen()**

```
void com.progmethgame.launcher.GameLauncher.displayWelcomeScreen ( )
```

Display connect screen

**5.40.2.9 dispose()**

```
void com.progmethgame.launcher.GameLauncher.dispose ( )
```

**5.40.2.10 getLauncher()**

```
static GameLauncher com.progmethgame.launcher.GameLauncher.getLauncher ( ) [static]
```

Get the global game launcher

**5.40.3 Member Data Documentation****5.40.3.1 launcher**

```
GameLauncher com.progmethgame.launcher.GameLauncher.launcher [static], [private]
```

Global game launcher

### 5.40.3.2 stageScreen

`StageScreen` `com.progmethgame.launcher.GameLauncher.stageScreen` [private]

Current UI stage (if applied)

The documentation for this class was generated from the following file:

- `/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/launcher/GameLauncher.java`

## 5.41 com.progmethgame.server.GameMap Class Reference

Inheritance diagram for `com.progmethgame.server.GameMap`:

### Public Member Functions

- `GameMap ()` throws `ServerStartupError`
- `Block getBlock (int x, int y)`
- `void onPlayerEnter (Player player)`
- `int getWidth ()`
- `int getHeight ()`
- `void reset ()`
- `void tick (float delta)`
- `void checkWinCondition ()`

### Private Member Functions

- `void parseMap ()` throws `MapParserException`

### Private Attributes

- `int map [][]`
- `Block blocks [][]`
- `int mapWidth`
- `int mapHeight`
- `final Vector2[] spawnPoints = {new Vector2(2, 2), new Vector2(18, 18)}`
- `int spawnPointsIdx = 0`
- `int resetTimer = -1`

### 5.41.1 Detailed Description

Store map's state and managed entity's interaction with the map

### 5.41.2 Constructor & Destructor Documentation

#### 5.41.2.1 GameMap()

```
com.progmethgame.server.GameMap.GameMap ( ) throws ServerStartupError
```

Read and initialize the map

##### Exceptions

<a href="#">ServerStartupError</a>	
------------------------------------	--

### 5.41.3 Member Function Documentation

#### 5.41.3.1 checkWinCondition()

```
void com.progmethgame.server.GameMap.checkWinCondition ( )
```

Check and handle win condition

#### 5.41.3.2 getBlock()

```
Block com.progmethgame.server.GameMap.getBlock (
    int x,
    int y )
```

Retrieval the block at specified position

##### Parameters

<i>x</i>	
<i>y</i>	

##### Returns

Block at that location or null if there's no block there

### 5.41.3.3 getHeight()

```
int com.progmethgame.server.GameMap.getHeight ( )
```

#### Returns

Map's height

### 5.41.3.4 getWidth()

```
int com.progmethgame.server.GameMap.getWidth ( )
```

#### Returns

Map's width

### 5.41.3.5 onPlayerEnter()

```
void com.progmethgame.server.GameMap.onPlayerEnter (
    Player player )
```

Initialize the player's state

#### Parameters

<i>player</i>	
---------------	--

### 5.41.3.6 parseMap()

```
void com.progmethgame.server.GameMap.parseMap ( ) throws MapParserException [private]
```

Parse the map file into 2d block id array.

#### Exceptions

<a href="#">MapParserException</a>	
------------------------------------	--

#### 5.41.3.7 reset()

```
void com.progmethgame.server.GameMap.reset ( )
```

Reset the map

#### 5.41.3.8 tick()

```
void com.progmethgame.server.GameMap.tick (
    float delta )
```

Advance this component by delta second

Parameters

<i>delta</i>	no. of second to advance
--------------	--------------------------

Implements [com.progmethgame.server.entities.Tickable](#).

### 5.41.4 Member Data Documentation

#### 5.41.4.1 blocks

```
Block com.progmethgame.server.GameMap.blocks[ ][ ] [private]
```

2d array of map's block object

#### 5.41.4.2 map

```
int com.progmethgame.server.GameMap.map[ ][ ] [private]
```

2d array of map's block id

#### 5.41.4.3 mapHeight

```
int com.progmethgame.server.GameMap.mapHeight [private]
```

height of the map

#### 5.41.4.4 mapWidth

```
int com.progmethgame.server.GameMap.mapWidth [private]
```

width of the map

#### 5.41.4.5 resetTimer

```
int com.progmethgame.server.GameMap.resetTimer = -1 [private]
```

Number of tick until the server reset itself

#### 5.41.4.6 spawnPoints

```
final Vector2 [] com.progmethgame.server.GameMap.spawnPoints = {new Vector2(2, 2), new Vector2(18, 18)} [private]
```

List of available spawn location

#### 5.41.4.7 spawnPointsIdx

```
int com.progmethgame.server.GameMap.spawnPointsIdx = 0 [private]
```

Index of the next spawn location

The documentation for this class was generated from the following file:

- /home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/server/GameMap.java

## 5.42 com.progmethgame.client.GameScreen Class Reference

Inheritance diagram for com.progmethgame.client.GameScreen:

### Public Member Functions

- [GameScreen](#) ()
- void [show](#) ()
- void [render](#) (float delta)
- void [resize](#) (int width, int height)
- void [pause](#) ()
- void [resume](#) ()
- void [hide](#) ()
- void [dispose](#) ()

### Private Member Functions

- void [setupInput](#) ()

## Private Attributes

- TiledMap [map](#)
- TiledMapRenderer [mapRenderer](#)
- OrthographicCamera [camera](#)
- Viewport [viewport](#)
- Batch [batch](#)
- Viewport [hudViewport](#)
- [GameDebugger](#) [debugger](#)

### 5.42.1 Detailed Description

Handle rendering of the game

### 5.42.2 Constructor & Destructor Documentation

#### 5.42.2.1 GameScreen()

```
com.progmethgame.client.GameScreen.GameScreen ( )
```

### 5.42.3 Member Function Documentation

#### 5.42.3.1 dispose()

```
void com.progmethgame.client.GameScreen.dispose ( )
```

#### 5.42.3.2 hide()

```
void com.progmethgame.client.GameScreen.hide ( )
```

#### 5.42.3.3 pause()

```
void com.progmethgame.client.GameScreen.pause ( )
```

#### 5.42.3.4 render()

```
void com.progmethgame.client.GameScreen.render (
    float delta )
```

#### 5.42.3.5 resize()

```
void com.progmethgame.client.GameScreen.resize (
    int width,
    int height )
```

#### 5.42.3.6 resume()

```
void com.progmethgame.client.GameScreen.resume ( )
```

#### 5.42.3.7 setupInput()

```
void com.progmethgame.client.GameScreen.setupInput ( ) [private]
```

Setup input controller

#### 5.42.3.8 show()

```
void com.progmethgame.client.GameScreen.show ( )
```

### 5.42.4 Member Data Documentation

#### 5.42.4.1 batch

```
Batch com.progmethgame.client.GameScreen.batch [private]
```

Rendering Batch

#### 5.42.4.2 camera

```
OrthographicCamera com.progmethgame.client.GameScreen.camera [private]
```

Game's camera

#### 5.42.4.3 debugger

`GameDebugger` `com.progmethgame.client.GameScreen.debugger` [private]

Debugger UI

#### 5.42.4.4 hudViewport

`Viewport` `com.progmethgame.client.GameScreen.hudViewport` [private]

Screen's viewport

#### 5.42.4.5 map

`TiledMap` `com.progmethgame.client.GameScreen.map` [private]

Game's map

#### 5.42.4.6 mapRenderer

`TiledMapRenderer` `com.progmethgame.client.GameScreen.mapRenderer` [private]

Map's renderer

#### 5.42.4.7 viewport

`Viewport` `com.progmethgame.client.GameScreen.viewport` [private]

Game's viewport

The documentation for this class was generated from the following file:

- `/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/client/GameScreen.java`

## 5.43 com.progmethgame.server.entities.guns.Gun Class Reference

Inheritance diagram for `com.progmethgame.server.entities.guns.Gun`:

## Public Member Functions

- [Gun](#) (String [name](#), float [maxCooldown](#), [Player](#) [owner](#))
- void [shoot](#) ()
- void [recharge](#) (float [tickRate](#))
- String [getName](#) ()
- [Bullet](#) [getBullet](#) ()
- String [getStatus](#) ()

## Public Attributes

- String [name](#)

## Protected Attributes

- [Bullet](#) [bullet](#)
- float [cooldown](#)
- float [maxCooldown](#)
- [Player](#) [owner](#)

### 5.43.1 Constructor & Destructor Documentation

#### 5.43.1.1 Gun()

```
com.progmethgame.server.entities.guns.Gun.Gun (
    String name,
    float maxCooldown,
    Player owner )
```

### 5.43.2 Member Function Documentation

#### 5.43.2.1 getBullet()

```
Bullet com.progmethgame.server.entities.guns.Gun.getBullet ( )
```

Bullet spawned

#### 5.43.2.2 getName()

```
String com.progmethgame.server.entities.guns.Gun.getName ( )
```

Name of the gun

#### 5.43.2.3 getStatus()

```
String com.progmethgame.server.entities.guns.Gun.getStatus ( )
```

Text displaying status of the gun

#### 5.43.2.4 recharge()

```
void com.progmethgame.server.entities.guns.Gun.recharge (
    float tickRate )
```

Reduce cooldown count

#### 5.43.2.5 shoot()

```
void com.progmethgame.server.entities.guns.Gun.shoot ( )
```

Spawn bullet from this gun

### 5.43.3 Member Data Documentation

#### 5.43.3.1 bullet

```
Bullet com.progmethgame.server.entities.guns.Gun.bullet [protected]
```

Bullet expelled by this gun

#### 5.43.3.2 cooldown

```
float com.progmethgame.server.entities.guns.Gun.cooldown [protected]
```

Gun's current cooldown interval

#### 5.43.3.3 maxCooldown

```
float com.progmethgame.server.entities.guns.Gun.maxCooldown [protected]
```

Gun's cooldown interval

#### 5.43.3.4 name

```
String com.progmethgame.server.entities.guns.Gun.name
```

Gun's name

### 5.43.3.5 owner

`Player` com.progmethgame.server.entities.guns.Gun.owner [protected]

`Player` who owned the gun

The documentation for this class was generated from the following file:

- /home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/server/entities/guns/Gun.↵  
java

## 5.44 com.progmethgame.server.entities.guns.GunConfig Class Reference

### Static Public Attributes

- static float `BURN_GUN_MAX_COOLDOWN` = 0.3f
- static float `CONFUSE_GUN_MAX_COOLDOWN` = 0.5f
- static float `SLOW_GUN_MAX_COOLDOWN` = 1f
- static float `STUNT_GUN_MAX_COOLDOWN` = 2f
- static float `HOOK_GUN_MAX_COOLDOWN` = 3f
- static float `TELEPORT_GUN_MAX_COOLDOWN` = 0.2f

### 5.44.1 Detailed Description

`Gun`'s configuration constants

### 5.44.2 Member Data Documentation

#### 5.44.2.1 BURN\_GUN\_MAX\_COOLDOWN

float com.progmethgame.server.entities.guns.GunConfig.BURN\_GUN\_MAX\_COOLDOWN = 0.3f [static]

cooldown for burn gun

#### 5.44.2.2 CONFUSE\_GUN\_MAX\_COOLDOWN

float com.progmethgame.server.entities.guns.GunConfig.CONFUSE\_GUN\_MAX\_COOLDOWN = 0.5f [static]

cooldown for confuse gun

### 5.44.2.3 HOOK\_GUN\_MAX\_COOLDOWN

`float com.progmethgame.server.entities.guns.GunConfig.HOOK_GUN_MAX_COOLDOWN = 3f [static]`  
 cooldown for hook gun

### 5.44.2.4 SLOW\_GUN\_MAX\_COOLDOWN

`float com.progmethgame.server.entities.guns.GunConfig.SLOW_GUN_MAX_COOLDOWN = 1f [static]`  
 cooldown for slow gun

### 5.44.2.5 STUNT\_GUN\_MAX\_COOLDOWN

`float com.progmethgame.server.entities.guns.GunConfig.STUNT_GUN_MAX_COOLDOWN = 2f [static]`  
 cooldown for stunt gun

### 5.44.2.6 TELEPORT\_GUN\_MAX\_COOLDOWN

`float com.progmethgame.server.entities.guns.GunConfig.TELEPORT_GUN_MAX_COOLDOWN = 0.2f [static]`  
 cooldown for teleport gun

The documentation for this class was generated from the following file:

- `/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/server/entities/guns/GunConfig.java`

## 5.45 com.progmethgame.client.graphic.component.Healthbar Class Reference

### Static Public Member Functions

- static void [render](#) (Batch batch, int x, int y, int width, int height, float health, String healthtex, String healthfilltex)

### 5.45.1 Detailed Description

Utility for drawing health bar

### 5.45.2 Member Function Documentation

#### 5.45.2.1 render()

```
static void com.progmethgame.client.graphic.component.Healthbar.render (
    Batch batch,
    int x,
    int y,
    int width,
    int height,
    float health,
    String healthtex,
    String healthfilltex ) [static]
```

Render the health bar

## Parameters

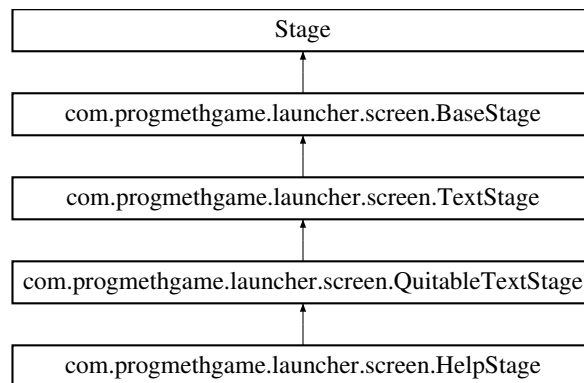

<i>batch</i>	Screen batch
<i>x</i>	
<i>y</i>	
<i>width</i>	
<i>height</i>	
<i>health</i>	Value between 0 and 1 indicating health
<i>healthtex</i>	Path to empty healthbar's texture
<i>healthfilltex</i>	Path to full healthbar's texture

The documentation for this class was generated from the following file:

- /home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/client/graphic/component/Healthbar.java

## 5.46 com.progmethgame.launcher.screen.HelpStage Class Reference

Inheritance diagram for com.progmethgame.launcher.screen.HelpStage:

### Public Member Functions

- [HelpStage](#) ()

### Static Public Attributes

- static final String [HELPTTEXT](#)

### Additional Inherited Members

#### 5.46.1 Detailed Description

Display Help information

Author

pigt

## 5.46.2 Constructor & Destructor Documentation

### 5.46.2.1 HelpStage()

```
com.progmethgame.launcher.screen.HelpStage.HelpStage ( )
```

## 5.46.3 Member Data Documentation

### 5.46.3.1 HELPTTEXT

```
final String com.progmethgame.launcher.screen.HelpStage.HELPTTEXT [static]
```

#### Initial value:

```
= "WASD to move"
  + "\nE to change weapon"
  + "\nSPACE to shoot"
  + "\n See game manual for more information."
```

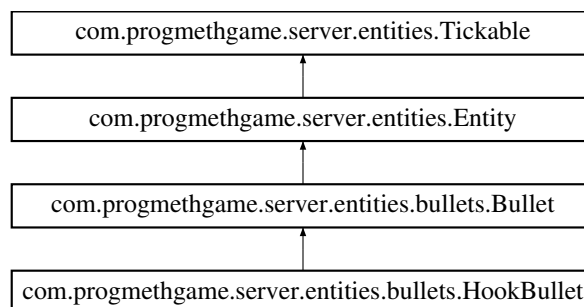

Help Information

The documentation for this class was generated from the following file:

- [/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/launcher/screen/HelpStage.java](#)

## 5.47 com.progmethgame.server.entities.bullets.HookBullet Class Reference

Inheritance diagram for com.progmethgame.server.entities.bullets.HookBullet:

### Public Member Functions

- [HookBullet](#) (Player owner)
- void [onCollide](#) (Player hitPlayer)
- [Bullet cpy](#) ()

## Static Public Attributes

- static final float [hookSpeed](#) = [BulletConfig.HOOK\\_SPEED](#)

## Additional Inherited Members

### 5.47.1 Constructor & Destructor Documentation

#### 5.47.1.1 HookBullet()

```
com.progmethgame.server.entities.bullets.HookBullet.HookBullet (
    Player owner )
```

### 5.47.2 Member Function Documentation

#### 5.47.2.1 cpy()

```
Bullet com.progmethgame.server.entities.bullets.HookBullet.cpy ( )
```

Duplicate this bullet

Reimplemented from [com.progmethgame.server.entities.bullets.Bullet](#).

#### 5.47.2.2 onCollide()

```
void com.progmethgame.server.entities.bullets.HookBullet.onCollide (
    Player hitPlayer )
```

Called when the bullet collide a player

Reimplemented from [com.progmethgame.server.entities.bullets.Bullet](#).

### 5.47.3 Member Data Documentation

### 5.47.3.1 hookSpeed

```
final float com.progmethgame.server.entities.bullets.HookBullet.hookSpeed = BulletConfig.HOOK_SPEED  
[static]
```

The documentation for this class was generated from the following file:

- [/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/server/entities/bullets/HookBullet.java](#)

## 5.48 com.progmethgame.server.entities.guns.HookGun Class Reference

Inheritance diagram for com.progmethgame.server.entities.guns.HookGun:

### Public Member Functions

- [HookGun](#) ([Player owner](#))

### Additional Inherited Members

#### 5.48.1 Detailed Description

[Gun](#) that spawn hook bullet

#### 5.48.2 Constructor & Destructor Documentation

##### 5.48.2.1 HookGun()

```
com.progmethgame.server.entities.guns.HookGun.HookGun (  
    Player owner )
```

The documentation for this class was generated from the following file:

- [/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/server/entities/guns/HookGun.java](#)

## 5.49 com.progmethgame.client.graphic.component.HudOverlay Class Reference

Inheritance diagram for com.progmethgame.client.graphic.component.HudOverlay:

### Public Member Functions

- [HudOverlay](#) ()
- void [render](#) (Viewport view, Batch batch, Rectangle rect, [ClientEntity](#) target)
- void [setHealth](#) (float health)
- void [setWeaponName](#) (String weaponName)
- void [setGunIcon](#) (DisplayType gunIcon)
- void [setPlayerIcon](#) (DisplayType playerIcon)

### Private Attributes

- float health
- String weaponName
- DisplayType gunIcon
- DisplayType playerIcon

#### 5.49.1 Detailed Description

HUD for displaying player's status

#### 5.49.2 Constructor & Destructor Documentation

##### 5.49.2.1 HudOverlay()

```
com.progmethgame.client.graphic.component.HudOverlay.HudOverlay ( )
```

#### 5.49.3 Member Function Documentation

##### 5.49.3.1 render()

```
void com.progmethgame.client.graphic.component.HudOverlay.render (
    Viewport view,
    Batch batch,
    Rectangle rect,
    ClientEntity target )
```

Render this overlay

**Parameters**

<i>view</i>	Screen's viewport
<i>batch</i>	Screen's batch
<i>rect</i>	The entity's bounding box in screen space.
<i>target</i>	The owner of this overlay

Reimplemented from [com.progmethgame.client.graphic.component.Overlay](#).

**5.49.3.2 setGunIcon()**

```
void com.progmethgame.client.graphic.component.HudOverlay.setGunIcon (
    DisplayType gunIcon )
```

**5.49.3.3 setHealth()**

```
void com.progmethgame.client.graphic.component.HudOverlay.setHealth (
    float health )
```

**5.49.3.4 setPlayerIcon()**

```
void com.progmethgame.client.graphic.component.HudOverlay.setPlayerIcon (
    DisplayType playerIcon )
```

**5.49.3.5 setWeaponName()**

```
void com.progmethgame.client.graphic.component.HudOverlay.setWeaponName (
    String weaponName )
```

**5.49.4 Member Data Documentation****5.49.4.1 gunIcon**

[DisplayType](#) com.progmethgame.client.graphic.component.HudOverlay.gunIcon [private]

Current gun's icon

### 5.49.4.2 health

```
float com.progmethgame.client.graphic.component.HudOverlay.health [private]
```

Current health portion

### 5.49.4.3 playerIcon

```
DisplayType com.progmethgame.client.graphic.component.HudOverlay.playerIcon [private]
```

Current player's icon

### 5.49.4.4 weaponName

```
String com.progmethgame.client.graphic.component.HudOverlay.weaponName [private]
```

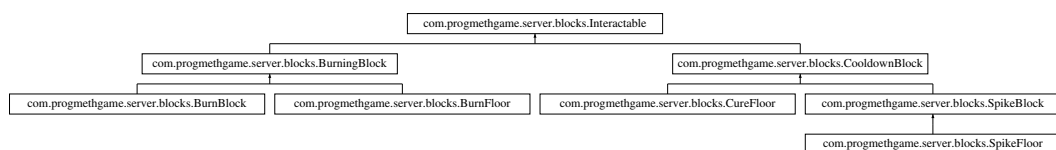

Weapon's name

The documentation for this class was generated from the following file:

- /home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/client/graphic/component/HudOverlay.java

## 5.50 com.progmethgame.server.blocks.Interactable Interface Reference

Inheritance diagram for com.progmethgame.server.blocks.Interactable:

### Public Member Functions

- void [interact](#) ([Player](#) p)

### 5.50.1 Detailed Description

[Block](#) that can interact with a player

Author

pigt

## 5.50.2 Member Function Documentation

### 5.50.2.1 interact()

```
void com.progmethgame.server.blocks.Interactable.interact (
    Player p )
```

Implemented in [com.progmethgame.server.blocks.CooldownBlock](#), and [com.progmethgame.server.blocks.BurningBlock](#).

The documentation for this interface was generated from the following file:

- `/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/server/blocks/Interactable.java`

## 5.51 com.progmethgame.network.KyroListener Class Reference

Inheritance diagram for com.progmethgame.network.KyroListener:

### Public Member Functions

- [KyroListener](#) (Queue< [ClientEvent](#) > [queue](#), Map< Connection, UUID > [con](#))
- void [connected](#) (Connection connection)
- void [received](#) (Connection connection, Object object)
- void [disconnected](#) (Connection connection)

### Private Attributes

- final Queue< [ClientEvent](#) > [queue](#)
- final Map< Connection, UUID > [con](#)

### 5.51.1 Detailed Description

Custom KyroNet listener for the server bus

### 5.51.2 Constructor & Destructor Documentation

#### 5.51.2.1 KyroListener()

```
com.progmethgame.network.KyroListener.KyroListener (
    Queue< ClientEvent > queue,
    Map< Connection, UUID > con )
```

Create new listener which push message to the queue and register client connection to the con

Queue is assume to be thread-safe con will always be lock when there's an operation

## Parameters

<i>queue</i>	client message storage queue
<i>con</i>	client UUID mapping storage

### 5.51.3 Member Function Documentation

#### 5.51.3.1 connected()

```
void com.progmethgame.network.KyroListener.connected (
    Connection connection )
```

#### 5.51.3.2 disconnected()

```
void com.progmethgame.network.KyroListener.disconnected (
    Connection connection )
```

#### 5.51.3.3 received()

```
void com.progmethgame.network.KyroListener.received (
    Connection connection,
    Object object )
```

### 5.51.4 Member Data Documentation

#### 5.51.4.1 con

```
final Map<Connection, UUID> com.progmethgame.network.KyroListener.con [private]
```

Client connection UUID mapping

### 5.51.4.2 queue

```
final Queue<ClientEvent> com.progmethgame.network.KyroListener.queue [private]
```

Queue of message received

The documentation for this class was generated from the following file:

- `/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/network/ServerBus.java`

## 5.52 com.progmethgame.server.MapParserException Class Reference

Inheritance diagram for com.progmethgame.server.MapParserException:

### Public Member Functions

- [MapParserException](#) (String message)
- [MapParserException](#) (String message, Throwable e)

### Static Private Attributes

- static final long [serialVersionUID](#) = -644306957292892482L

### 5.52.1 Detailed Description

the Map is malformed or not found

### 5.52.2 Constructor & Destructor Documentation

#### 5.52.2.1 MapParserException() [1/2]

```
com.progmethgame.server.MapParserException.MapParserException (
    String message )
```

### 5.52.2.2 MapParserException() [2/2]

```
com.progmethgame.server.MapParserException.MapParserException (
    String message,
    Throwable e )
```

## 5.52.3 Member Data Documentation

### 5.52.3.1 serialVersionUID

```
final long com.progmethgame.server.MapParserException.serialVersionUID = -644306957292892482L
[static], [private]
```

The documentation for this class was generated from the following file:

- /home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/server/MapParserException.java

## 5.53 com.progmethgame.network.NetworkPacket< T > Class Template Reference

### Public Member Functions

- [NetworkPacket](#) ()

### Public Attributes

- [ArrayList](#)< T > [eventsList](#)

## 5.53.1 Constructor & Destructor Documentation

### 5.53.1.1 NetworkPacket()

```
com.progmethgame.network.NetworkPacket< T >.NetworkPacket ( )
```

## 5.53.2 Member Data Documentation

### 5.53.2.1 eventsList

```
ArrayList<T> com.progmethgame.network.NetworkPacket< T >.eventsList
```

The documentation for this class was generated from the following file:

## 5.54 com.progmethgame.client.graphic.component.Overlay Class Reference

Inheritance diagram for com.progmethgame.client.graphic.component.Overlay:

### Public Member Functions

- abstract void [render](#) (Viewport view, Batch batch, Rectangle rect, [ClientEntity](#) target)

### 5.54.1 Detailed Description

A data structure representing a graphical widget attached to an entity.

It renders on top of the game in the screen space. This is a synchronized data structure. Don't put any context or state data here.

### 5.54.2 Member Function Documentation

#### 5.54.2.1 render()

```
abstract void com.progmethgame.client.graphic.component.Overlay.render (
    Viewport view,
    Batch batch,
    Rectangle rect,
    ClientEntity target ) [abstract]
```

Render this overlay

#### Parameters

<i>view</i>	Screen's viewport
<i>batch</i>	Screen's batch
<i>rect</i>	The entity's bounding box in screen space.
<i>target</i>	The owner of this overlay

Reimplemented in [com.progmethgame.client.graphic.component.HudOverlay](#), [com.progmethgame.client.graphic.component.BannerOverlay](#) and [com.progmethgame.client.graphic.component.StatusOverlay](#).

The documentation for this class was generated from the following file:

- `/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/client/graphic/component/Overlay.java`

## 5.55 com.progmethgame.server.entities.Player Class Reference

Inheritance diagram for com.progmethgame.server.entities.Player:

### Classes

- enum [Color](#)

### Public Member Functions

- [Player](#) (UUID [gid](#))
- void [setColor](#) ([Color](#) c)
- void [setMovable](#) (boolean [movable](#))
- void [setConfuse](#) (boolean [confuse](#))
- float [getSpeed](#) ()
- void [setSpeed](#) (float [speed](#))
- int [getDps](#) ()
- void [setDps](#) (int [dps](#))
- [StatusEffect](#) [getEffect](#) ()
- void [setEffect](#) ([StatusEffect](#) effect)
- int [dealDamage](#) (int damage)
- void [tick](#) (float delta)
- void [setWalkDirection](#) ([Vector2](#) dir)
- [Vector2](#) [getFaceDirection](#) ()
- boolean [isAlive](#) ()
- void [fire](#) ()
- void [swapGun](#) ()
- void [onWalkOn](#) ([Block](#) block)
- void [onCollideSolid](#) ([Block](#) block)

### Package Attributes

- [HudOverlay](#) hud
- [StatusOverlay](#) healthOv

## Private Attributes

- boolean [alive](#)
- int [dps](#)
- int [hp](#)
- [StatusEffect](#) [effect](#)
- int [tickCount](#)
- [Gun](#)[] [gunSlot](#)
- [Gun](#) [holdedGun](#)
- int [gunIndex](#)
- float [speed](#)
- [Vector2](#) [walkDirection](#)
- boolean [movable](#)
- boolean [confuse](#)
- boolean [shootable](#)

## Additional Inherited Members

### 5.55.1 Detailed Description

Game player

### 5.55.2 Constructor & Destructor Documentation

#### 5.55.2.1 Player()

```
com.progmethgame.server.entities.Player.Player (
    UUID gid )
```

### 5.55.3 Member Function Documentation

#### 5.55.3.1 dealDamge()

```
int com.progmethgame.server.entities.Player.dealDamge (
    int damage )
```

deal damage to player

#### Parameters

<i>damage</i>	
---------------	--

**Returns**

amount of damage that deal to player

**5.55.3.2 fire()**

```
void com.progmethgame.server.entities.Player.fire ( )
```

shoot gun

**5.55.3.3 getDps()**

```
int com.progmethgame.server.entities.Player.getDps ( )
```

get player damage per second

**Returns****5.55.3.4 getEffect()**

```
StatusEffect com.progmethgame.server.entities.Player.getEffect ( )
```

**Returns**

player's status effect

**5.55.3.5 getFaceDirection()**

```
Vector2 com.progmethgame.server.entities.Player.getFaceDirection ( )
```

**Returns**

player's face direction

### 5.55.3.6 `getSpeed()`

```
float com.progmethgame.server.entities.Player.getSpeed ( )
```

#### Returns

player's speed

### 5.55.3.7 `isAlive()`

```
boolean com.progmethgame.server.entities.Player.isAlive ( )
```

#### Returns

alive

### 5.55.3.8 `onCollideSolid()`

```
void com.progmethgame.server.entities.Player.onCollideSolid (
    Block block )
```

Call when entity hit solid block

#### Parameters

<i>block</i>	the block that this entity collided with
--------------	--

Reimplemented from [com.progmethgame.server.entities.Entity](#).

### 5.55.3.9 `onWalkOn()`

```
void com.progmethgame.server.entities.Player.onWalkOn (
    Block block )
```

Called when walked on the block

#### Parameters

<i>block</i>	the block that got walked on
--------------	------------------------------

Reimplemented from [com.progmethgame.server.entities.Entity](#).

### 5.55.3.10 setColor()

```
void com.progmethgame.server.entities.Player.setColor (
    Color c )
```

set color of player

#### Parameters

<i>color</i>	
--------------	--

### 5.55.3.11 setConfuse()

```
void com.progmethgame.server.entities.Player.setConfuse (
    boolean confuse )
```

set player confuse status

#### Parameters

<i>confuse</i>	
----------------	--

### 5.55.3.12 setDps()

```
void com.progmethgame.server.entities.Player.setDps (
    int dps )
```

set damage per second

#### Parameters

<i>damage</i>	per second
---------------	------------

### 5.55.3.13 setEffect()

```
void com.progmethgame.server.entities.Player.setEffect (
    StatusEffect effect )
```

set player's effect

**Parameters**

<i>effect</i>	
---------------	--

**5.55.3.14 setMovable()**

```
void com.progmethgame.server.entities.Player.setMovable (
    boolean movable )
```

set player movable status

**Parameters**

<i>movable</i>	
----------------	--

**5.55.3.15 setSpeed()**

```
void com.progmethgame.server.entities.Player.setSpeed (
    float speed )
```

set player speed

**Parameters**

<i>speed</i>	
--------------	--

**5.55.3.16 setWalkDirection()**

```
void com.progmethgame.server.entities.Player.setWalkDirection (
    Vector2 dir )
```

set player walk direction

**Parameters**

<i>dir</i>	
------------	--

### 5.55.3.17 swapGun()

```
void com.progmethgame.server.entities.Player.swapGun ( )
```

swap player's holded gun

### 5.55.3.18 tick()

```
void com.progmethgame.server.entities.Player.tick (
    float delta )
```

Advance this component by delta second

#### Parameters

<i>delta</i>	no. of second to advance
--------------	--------------------------

Reimplemented from [com.progmethgame.server.entities.Entity](#).

## 5.55.4 Member Data Documentation

### 5.55.4.1 alive

```
boolean com.progmethgame.server.entities.Player.alive [private]
```

Status if the player is alive

### 5.55.4.2 confuse

```
boolean com.progmethgame.server.entities.Player.confuse [private]
```

Status if player confuse

### 5.55.4.3 dps

```
int com.progmethgame.server.entities.Player.dps [private]
```

Damage dealing to player per second

### 5.55.4.4 effect

```
StatusEffect com.progmethgame.server.entities.Player.effect [private]
```

Effect that affect player

#### 5.55.4.5 gunIndex

```
int com.progmethgame.server.entities.Player.gunIndex [private]
```

Index of the gun that player is holding

#### 5.55.4.6 gunSlot

```
Gun [] com.progmethgame.server.entities.Player.gunSlot [private]
```

Gun Slot for player

#### 5.55.4.7 healthOv

```
StatusOverlay com.progmethgame.server.entities.Player.healthOv [package]
```

health bar on player

#### 5.55.4.8 holdedGun

```
Gun com.progmethgame.server.entities.Player.holdedGun [private]
```

The gun that player is holding

#### 5.55.4.9 hp

```
int com.progmethgame.server.entities.Player.hp [private]
```

Health point

#### 5.55.4.10 hud

```
HudOverlay com.progmethgame.server.entities.Player.hud [package]
```

HUD for [Player](#)

#### 5.55.4.11 movable

```
boolean com.progmethgame.server.entities.Player.movable [private]
```

Status if player can move

#### 5.55.4.12 shootable

```
boolean com.progmethgame.server.entities.Player.shootable [private]
```

Status if player can shoot

**5.55.4.13 speed**

```
float com.progmethgame.server.entities.Player.speed [private]
```

Speed of move

**5.55.4.14 tickCount**

```
int com.progmethgame.server.entities.Player.tickCount [private]
```

integer for tick method

**5.55.4.15 walkDirection**

```
Vector2 com.progmethgame.server.entities.Player.walkDirection [private]
```

Walk direction

## 5.58 com.progmethgame.network.event.client.PlayerSwapGunEvent Class Reference

Inheritance diagram for com.progmethgame.network.event.client.PlayerSwapGunEvent:

### Public Member Functions

- void [notifyListener](#) ([ServerBusListener](#) target)

### Additional Inherited Members

#### 5.58.1 Detailed Description

Player request gun swap

#### 5.58.2 Member Function Documentation

##### 5.58.2.1 notifyListener()

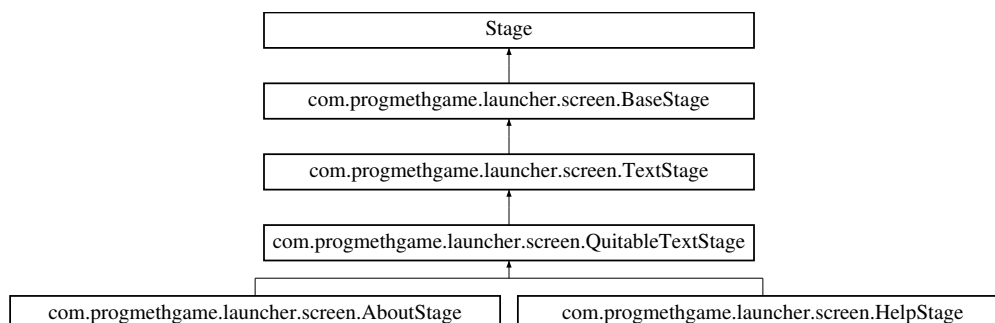

```
void com.progmethgame.network.event.client.PlayerSwapGunEvent.notifyListener (
    ServerBusListener target )
```

The documentation for this class was generated from the following file:

- /home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/network/event/client/PlayerSwapGunEvent.java

## 5.59 com.progmethgame.launcher.screen.QuitableTextStage Class Reference

Inheritance diagram for com.progmethgame.launcher.screen.QuitableTextStage:

## Public Member Functions

- [QuitableViewStage](#) (String text)

## Additional Inherited Members

### 5.59.1 Detailed Description

Display a message with quit button

Author

pigt

### 5.59.2 Constructor & Destructor Documentation

#### 5.59.2.1 QuitableViewStage()

```
com.progmethgame.launcher.screen.QuitableViewStage.QuitableViewStage (
    String text )
```

The documentation for this class was generated from the following file:

- /home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/launcher/screen/QuitableViewStage.java

## 5.60 com.progmethgame.network.SerializationUtil Class Reference

### Static Public Member Functions

- static void [registerKryo](#) (Kryo k)

### 5.60.1 Detailed Description

Utility class for configuring a kyro serializer.

Author

pigt

### 5.60.2 Member Function Documentation

#### 5.60.2.1 registerKryo()

```
static void com.progmethgame.network.SerializationUtil.registerKryo (
    Kryo k ) [static]
```

Set up kyro serializer

## Parameters

<i>k</i>	kyro
----------	------

The documentation for this class was generated from the following file:

- [/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/network/SerializationUtil.java](#)

## 5.61 com.progmethgame.network.event.server.ServerAddEntityEvent Class Reference

- void [log](#) (String m)

## Private Attributes

- volatile boolean [running](#)
- final Server [kryoServer](#)
- final ConcurrentLinkedQueue< [ClientEvent](#) > [inputEventQueue](#)
- final ArrayList< [ServerEventBroadcast](#) > [outputEventQueue](#)
- final HashMap< Connection, UUID > [clientConnections](#)
- final [ServerBusListener](#) listener
- final [Ticker](#) ticker

### 5.62.1 Detailed Description

Server's communication bus.

Provides communication (event source and event bus) to multiple clients. event should be handled by this bus's thread.

### 5.62.2 Constructor & Destructor Documentation

#### 5.62.2.1 ServerBus()

```
com.progmethgame.network.ServerBus.ServerBus (
    ServerBusListener listener ) throws IOException
```

Initialize and spin-off a separate server bus thread

#### Parameters

<i>listener</i>	Event Listener
-----------------	----------------

## Exceptions

<i>IOException</i>	
--------------------	--

## 5.62.3 Member Function Documentation

### 5.62.3.1 getConnectionUUIDs()

```
List<UUID> com.progmethgame.network.ServerBus.getConnectionUUIDs ( )
```

Get all client's uuid connected to the server

#### Returns

### 5.62.3.2 log()

```
void com.progmethgame.network.ServerBus.log (
    String m ) [private]
```

Log message to stderr

#### Parameters

<i>m</i>	message
----------	---------

### 5.62.3.3 processInputEvent()

```
void com.progmethgame.network.ServerBus.processInputEvent ( ) [private]
```

Process event received from the clients

### 5.62.3.4 processOutputEvent()

```
void com.progmethgame.network.ServerBus.processOutputEvent ( ) [private]
```

Send event from the server

### 5.62.3.5 run()

```
void com.progmethgame.network.ServerBus.run ( )
```

### 5.62.3.6 sendEvent()

```
void com.progmethgame.network.ServerBus.sendEvent (
    UUID clientId,
    ServerEvent event )
```

Send a server event to the client(s).

#### Parameters

<i>clientId</i>	Target client (if clientId == null then all clients will received the event)
<i>event</i>	

### 5.62.3.7 terminate()

```
void com.progmethgame.network.ServerBus.terminate ( )
```

Stop the bus's thread and cleanup all the resources.

## 5.62.4 Member Data Documentation

### 5.62.4.1 clientConnections

```
final HashMap<Connection, UUID> com.progmethgame.network.ServerBus.clientConnections [private]
```

Map from Kryo connection to UUID

### 5.62.4.2 inputEventQueue

```
final ConcurrentLinkedQueue<ClientEvent> com.progmethgame.network.ServerBus.inputEventQueue
[private]
```

Client's event waiting to be processed

#### 5.62.4.3 kryoServer

```
final Server com.progmethgame.network.ServerBus.kryoServer [private]
```

Kryonet server

#### 5.62.4.4 listener

```
final ServerBusListener com.progmethgame.network.ServerBus.listener [private]
```

ServerBus's event listener

#### 5.62.4.5 outputEventQueue

```
final ArrayList<ServerEventBroadcast> com.progmethgame.network.ServerBus.outputEventQueue  
[private]
```

Server's event waiting to be send

#### 5.62.4.6 running

```
volatile boolean com.progmethgame.network.ServerBus.running [private]
```

Server is running

#### 5.62.4.7 ticker

```
final Ticker com.progmethgame.network.ServerBus.ticker [private]
```

Server Tick rate governor

The documentation for this class was generated from the following file:

- /home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/network/ServerBus.java

## 5.63 com.progmethgame.network.ServerBusListener Interface Reference

Inheritance diagram for com.progmethgame.network.ServerBusListener:

## Public Member Functions

- void [onTick](#) (float delta)
- void [onClientJoin](#) (UUID id)
- void [onClientDisconnect](#) (UUID id)
- void [onPlayerMove](#) (UUID id, Vector2 direction)
- void [onPlayerFire](#) (UUID id)
- void [onDebug](#) (UUID id, String debugMsg)
- void [onPlayerSwapGun](#) (UUID id)

### 5.63.1 Detailed Description

Event listener for the server bus

### 5.63.2 Member Function Documentation

#### 5.63.2.1 [onClientDisconnect\(\)](#)

```
void com.progmethgame.network.ServerBusListener.onClientDisconnect (
    UUID id )
```

Client disconnected from the server

##### Parameters

<i>id</i>	client's id
-----------	-------------

Implemented in [com.progmethgame.server.ServerRuntime](#).

#### 5.63.2.2 [onClientJoin\(\)](#)

```
void com.progmethgame.network.ServerBusListener.onClientJoin (
    UUID id )
```

Client connected to the server

##### Parameters

<i>id</i>	client's id
-----------	-------------

Implemented in [com.progmethgame.server.ServerRuntime](#).

### 5.63.2.3 onDebug()

```
void com.progmethgame.network.ServerBusListener.onDebug (
    UUID id,
    String debugMsg )
```

Client issue debug command to the server

#### Parameters

<i>id</i>	client's id
<i>debugMsg</i>	debug command

Implemented in [com.progmethgame.server.ServerRuntime](#).

### 5.63.2.4 onPlayerFire()

```
void com.progmethgame.network.ServerBusListener.onPlayerFire (
    UUID id )
```

Client request gun fire action.

#### Parameters

<i>id</i>	client's id
-----------	-------------

Implemented in [com.progmethgame.server.ServerRuntime](#).

### 5.63.2.5 onPlayerMove()

```
void com.progmethgame.network.ServerBusListener.onPlayerMove (
    UUID id,
    Vector2 direction )
```

Client's controller request vector changes.

#### Parameters

<i>id</i>	client's id
<i>direction</i>	new movement vector

Implemented in [com.progmethgame.server.ServerRuntime](#).

### 5.63.2.6 onPlayerSwapGun()

```
void com.progmethgame.network.ServerBusListener.onPlayerSwapGun (
    UUID id )
```

Client request gun change.

#### Parameters

<i>id</i>	client's id
-----------	-------------

Implemented in [com.progmethgame.server.ServerRuntime](#).

### 5.63.2.7 onTick()

```
void com.progmethgame.network.ServerBusListener.onTick (
    float delta )
```

Bus finished processing the event.

#### Parameters

<i>delta</i>	time since last onTick
--------------	------------------------

Implemented in [com.progmethgame.server.ServerRuntime](#).

The documentation for this interface was generated from the following file:

- [/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/network/ServerBusListener.java](#)

## 5.64 com.progmethgame.common.context.ServerContext Interface Reference

Inheritance diagram for com.progmethgame.common.context.ServerContext:

## Public Member Functions

- void [addEntity](#) ([Entity](#) e)
- void [removeEntity](#) ([Entity](#) e)
- void [playSound](#) ([SoundType](#) s)
- void [reset](#) ()
- Map< UUID, [Player](#) > [getPlayers](#) ()

### 5.64.1 Detailed Description

Provides methods for interacting with server runtime

### 5.64.2 Member Function Documentation

#### 5.64.2.1 addEntity()

```
void com.progmethgame.common.context.ServerContext.addEntity (  
    Entity e )
```

Add new entity

##### Parameters

<i>e</i>	Entity to be added
----------	--------------------

Implemented in [com.progmethgame.server.ServerRuntime](#).

#### 5.64.2.2 getPlayers()

```
Map<UUID, Player> com.progmethgame.common.context.ServerContext.getPlayers ( )
```

Get all players

##### Returns

Map of UUID to Player

Implemented in [com.progmethgame.server.ServerRuntime](#).

#### 5.64.2.3 playSound()

```
void com.progmethgame.common.context.ServerContext.playSound (  
    SoundType s )
```

Play sound effect on all clients

## Parameters

<i>s</i>	
----------	--

Implemented in [com.progmethgame.server.ServerRuntime](#).

**5.64.2.4 removeEntity()**

```
void com.progmethgame.common.context.ServerContext.removeEntity (
    Entity e )
```

Remove the entity

## Parameters

<i>e</i>	
----------	--

Implemented in [com.progmethgame.server.ServerRuntime](#).

**5.64.2.5 reset()**

```
void com.progmethgame.common.context.ServerContext.reset ( )
```

Reset and start a new game

Implemented in [com.progmethgame.server.ServerRuntime](#).

The documentation for this interface was generated from the following file:

- [/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/common/context/ServerContext.java](#)

**5.65 com.progmethgame.network.event.base.ServerEvent Class Reference**

Inheritance diagram for com.progmethgame.network.event.base.ServerEvent:

## Additional Inherited Members

### 5.65.1 Detailed Description

Event emitted from a game server.

The documentation for this class was generated from the following file:

- `/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/network/event/base/ServerEvent.java`

## 5.66 com.progmethgame.network.ServerEventBroadcast Class Reference

### Public Member Functions

- [ServerEventBroadcast](#) (UUID [target](#), [ServerEvent](#) [event](#))

### Package Attributes

- UUID [target](#)
- [ServerEvent](#) [event](#)

### 5.66.1 Detailed Description

Data structure for storing server event sending request

Author

pigt

### 5.66.2 Constructor & Destructor Documentation

#### 5.66.2.1 ServerEventBroadcast()

```
com.progmethgame.network.ServerEventBroadcast.ServerEventBroadcast (
    UUID target,
    ServerEvent event )
```

Create new broadcast to target with event

### 5.66.3 Member Data Documentation

#### 5.66.3.1 event

`ServerEvent` `com.progmethgame.network.ServerEventBroadcast.event` [package]

The event

#### 5.66.3.2 target

`UUID` `com.progmethgame.network.ServerEventBroadcast.target` [package]

Target client. null if ALL clients

The documentation for this class was generated from the following file:

- `/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/network/ServerBus.java`

## 5.67 com.progmethgame.network.event.server.ServerPlaySoundEvent Class Reference

Inheritance diagram for `com.progmethgame.network.event.server.ServerPlaySoundEvent`:

### Public Member Functions

- `ServerPlaySoundEvent` (`SoundType` s)
- `void notifyListener` (`ClientBusListener` target)

### Private Member Functions

- `ServerPlaySoundEvent` ()

### Private Attributes

- `SoundType` sound

### 5.67.1 Detailed Description

Request client to play a sound

### 5.67.2 Constructor & Destructor Documentation

#### 5.67.2.1 ServerPlaySoundEvent() [1/2]

```
com.progmethgame.network.event.server.ServerPlaySoundEvent.ServerPlaySoundEvent ( ) [private]
```

#### 5.67.2.2 ServerPlaySoundEvent() [2/2]

```
com.progmethgame.network.event.server.ServerPlaySoundEvent.ServerPlaySoundEvent (
    SoundType s )
```

Create new event to play the specified sound

Parameters

s	sound to play
---	---------------

### 5.67.3 Member Function Documentation

#### 5.67.3.1 notifyListener()

```
void com.progmethgame.network.event.server.ServerPlaySoundEvent.notifyListener (
    ClientBusListener target )
```

### 5.67.4 Member Data Documentation

#### 5.67.4.1 sound

```
SoundType com.progmethgame.network.event.server.ServerPlaySoundEvent.sound [private]
```

Sound requested

The documentation for this class was generated from the following file:

- /home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/network/event/server/ServerPlaySoundEvent.java

## 5.68 com.progmethgame.network.event.server.ServerReadyEvent Class Reference

Inheritance diagram for com.progmethgame.network.event.server.ServerReadyEvent:

### Public Member Functions

- [ServerReadyEvent](#) (UUID [assignedId](#))
- void [notifyListener](#) ([ClientBusListener](#) target)

### Public Attributes

- UUID [assignedId](#)

### Private Member Functions

- [ServerReadyEvent](#) ()

#### 5.68.1 Detailed Description

Signal that client should display the game now

Author

pigt

#### 5.68.2 Constructor & Destructor Documentation

##### 5.68.2.1 ServerReadyEvent() [1/2]

```
com.progmethgame.network.event.server.ServerReadyEvent.ServerReadyEvent ( ) [private]
```

### 5.68.2.2 ServerReadyEvent() [2/2]

```
com.progmethgame.network.event.server.ServerReadyEvent.ServerReadyEvent (
    UUID assignedId )
```

## 5.68.3 Member Function Documentation

### 5.68.3.1 notifyListener()

```
void com.progmethgame.network.event.server.ServerReadyEvent.notifyListener (
    ClientBusListener target )
```

## 5.68.4 Member Data Documentation

### 5.68.4.1 assignedId

```
UUID com.progmethgame.network.event.server.ServerReadyEvent.assignedId
```

ID that the server assigned to this client

The documentation for this class was generated from the following file:

- /home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/network/event/server/ServerReadyEvent.java

## 5.69 com.progmethgame.network.event.server.ServerRemoveEntityEvent Class Reference

Inheritance diagram for com.progmethgame.network.event.server.ServerRemoveEntityEvent:

## Public Member Functions

- [ServerRemoveEntityEvent](#) (UUID [entityId](#))
- void [notifyListener](#) ([ClientBusListener](#) target)

## Private Member Functions

- [ServerRemoveEntityEvent](#) ()

## Private Attributes

- UUID [entityId](#)

### 5.69.1 Detailed Description

Server remove an entity

### 5.69.2 Constructor & Destructor Documentation

#### 5.69.2.1 [ServerRemoveEntityEvent](#)() [1/2]

```
com.progmethgame.network.event.server.ServerRemoveEntityEvent.ServerRemoveEntityEvent ( )  
[private]
```

#### 5.69.2.2 [ServerRemoveEntityEvent](#)() [2/2]

```
com.progmethgame.network.event.server.ServerRemoveEntityEvent.ServerRemoveEntityEvent (   
    UUID entityId )
```

### 5.69.3 Member Function Documentation

#### 5.69.3.1 [notifyListener](#)()

```
void com.progmethgame.network.event.server.ServerRemoveEntityEvent.notifyListener (   
    ClientBusListener target )
```

## 5.69.4 Member Data Documentation

### 5.69.4.1 entityId

UUID com.progmethgame.network.event.server.ServerRemoveEntityEvent.entityId [private]

ID of the entity removed

The documentation for this class was generated from the following file:

- /home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/network/event/server/ServerRemoveEntityEvent.java

## 5.70 com.progmethgame.network.event.server.ServerResetEvent Class Reference

Inheritance diagram for com.progmethgame.network.event.server.ServerResetEvent:

### Public Member Functions

- void [notifyListener](#) ([ClientBusListener](#) target)

### 5.70.1 Detailed Description

Server request client to reset its world state

### 5.70.2 Member Function Documentation

### 5.70.2.1 notifyListener()

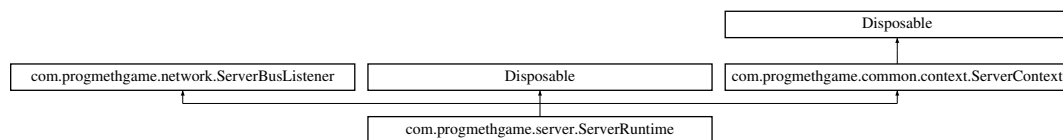

```
void com.progmethgame.network.event.server.ServerResetEvent.notifyListener (
    ClientBusListener target )
```

The documentation for this class was generated from the following file:

- /home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/network/event/server/ServerResetEvent.java

## 5.71 com.progmethgame.server.ServerRuntime Class Reference

Inheritance diagram for com.progmethgame.server.ServerRuntime:

### Public Member Functions

- [ServerRuntime](#) () throws `ServerStartupError`
- void [addEntity](#) ([Entity](#) e)
- void [removeEntity](#) ([Entity](#) e)
- void [onTick](#) (float delta)
- void [onClientJoin](#) (UUID id)
- void [onClientDisconnect](#) (UUID id)
- void [onPlayerMove](#) (UUID id, `Vector2` direction)
- void [dispose](#) ()
- void [onPlayerFire](#) (UUID id)
- void [onDebug](#) (UUID id, `String` debugMsg)
- void [onPlayerSwapGun](#) (UUID id)
- void [playSound](#) ([SoundType](#) s)
- void [reset](#) ()
- `Map< UUID, Player >` [getPlayers](#) ()

### Package Attributes

- [ServerBus](#) bus
- Random [rand](#)

### Private Member Functions

- void [simulatePhysic](#) (float delta)

## Private Attributes

- [GameMap](#) map
- [HashMap](#)< [UUID](#), [Entity](#) > entities
- [HashMap](#)< [UUID](#), [Player](#) > players
- final [Queue](#)< [Entity](#) > entitiesAddQueue
- final [Queue](#)< [Entity](#) > entitiesRemovalQueue

### 5.71.1 Detailed Description

Manage the game state.

This class processes the client's event, manage the entities, calculate the physic.

### 5.71.2 Constructor & Destructor Documentation

#### 5.71.2.1 ServerRuntime()

`com.progmethgame.server.ServerRuntime.ServerRuntime ( )` throws [ServerStartupError](#)

Create a server and aquire the port

Exceptions

<a href="#">ServerStartupError</a>	
------------------------------------	--

### 5.71.3 Member Function Documentation

#### 5.71.3.1 addEntity()

```
void com.progmethgame.server.ServerRuntime.addEntity (
    Entity e )
```

Add new entity

Parameters

e	Entity to be added
---	--------------------

Implements [com.progmethgame.common.context.ServerContext](#).

### 5.71.3.2 dispose()

```
void com.progmethgame.server.ServerRuntime.dispose ( )
```

### 5.71.3.3 getPlayers()

```
Map<UUID, Player> com.progmethgame.server.ServerRuntime.getPlayers ( )
```

Get all players

#### Returns

Map of UUID to Player

Implements [com.progmethgame.common.context.ServerContext](#).

### 5.71.3.4 onClientDisconnect()

```
void com.progmethgame.server.ServerRuntime.onClientDisconnect (
    UUID id )
```

Client disconnected from the server

#### Parameters

<i>id</i>	client's id
-----------	-------------

Implements [com.progmethgame.network.ServerBusListener](#).

### 5.71.3.5 onClientJoin()

```
void com.progmethgame.server.ServerRuntime.onClientJoin (
    UUID id )
```

Client connected to the server

#### Parameters

<i>id</i>	client's id
-----------	-------------

Implements [com.progmethgame.network.ServerBusListener](#).

### 5.71.3.6 onDebug()

```
void com.progmethgame.server.ServerRuntime.onDebug (
    UUID id,
    String debugMsg )
```

Client issue debug command to the server

#### Parameters

<i>id</i>	client's id
<i>debugMsg</i>	debug command

Implements [com.progmethgame.network.ServerBusListener](#).

### 5.71.3.7 onPlayerFire()

```
void com.progmethgame.server.ServerRuntime.onPlayerFire (
    UUID id )
```

Client request gun fire action.

#### Parameters

<i>id</i>	client's id
-----------	-------------

Implements [com.progmethgame.network.ServerBusListener](#).

### 5.71.3.8 onPlayerMove()

```
void com.progmethgame.server.ServerRuntime.onPlayerMove (
    UUID id,
    Vector2 direction )
```

Client's controller request vector changes.

#### Parameters

<i>id</i>	client's id
<i>direction</i>	new movement vector

Implements [com.progmethgame.network.ServerBusListener](#).

### 5.71.3.9 onPlayerSwapGun()

```
void com.progmethgame.server.ServerRuntime.onPlayerSwapGun (
    UUID id )
```

Client request gun change.

#### Parameters

<i>id</i>	client's id
-----------	-------------

Implements [com.progmethgame.network.ServerBusListener](#).

### 5.71.3.10 onTick()

```
void com.progmethgame.server.ServerRuntime.onTick (
    float delta )
```

Bus finished processing the event.

#### Parameters

<i>delta</i>	time since last onTick
--------------	------------------------

Implements [com.progmethgame.network.ServerBusListener](#).

### 5.71.3.11 playSound()

```
void com.progmethgame.server.ServerRuntime.playSound (
    SoundType s )
```

Play sound effect on all clients

#### Parameters

<i>s</i>	
----------	--

Implements [com.progmethgame.common.context.ServerContext](#).

### 5.71.3.12 removeEntity()

```
void com.progmethgame.server.ServerRuntime.removeEntity (
    Entity e )
```

Remove the entity

**Parameters**

<i>e</i>	
----------	--

Implements [com.progmethgame.common.context.ServerContext](#).

**5.71.3.13 reset()**

```
void com.progmethgame.server.ServerRuntime.reset ( )
```

Reset and start a new game

Implements [com.progmethgame.common.context.ServerContext](#).

**5.71.3.14 simulatePhysic()**

```
void com.progmethgame.server.ServerRuntime.simulatePhysic (
    float delta ) [private]
```

Perform physic simulation on entities

**Parameters**

<i>delta</i>	time-step
--------------	-----------

**5.71.4 Member Data Documentation****5.71.4.1 bus**

```
ServerBus com.progmethgame.server.ServerRuntime.bus [package]
```

Communication bus

**5.71.4.2 entities**

```
HashMap<UUID, Entity> com.progmethgame.server.ServerRuntime.entities [private]
```

List of entities

### 5.71.4.3 entitiesAddQueue

```
final Queue<Entity> com.progmethgame.server.ServerRuntime.entitiesAddQueue [private]
```

Queue for entities to be added

### 5.71.4.4 entitiesRemovalQueue

```
final Queue<Entity> com.progmethgame.server.ServerRuntime.entitiesRemovalQueue [private]
```

Queue for entities to be removed

### 5.71.4.5 map

```
GameMap com.progmethgame.server.ServerRuntime.map [private]
```

Current game's map

### 5.71.4.6 players

```
HashMap<UUID, Player> com.progmethgame.server.ServerRuntime.players [private]
```

List of players

### 5.71.4.7 rand

```
Random com.progmethgame.server.ServerRuntime.rand [package]
```

Random number generator

The documentation for this class was generated from the following file:

- /home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/server/ServerRuntime.java↵

## 5.72 com.progmethgame.server.ServerStartupError Class Reference

Inheritance diagram for com.progmethgame.server.ServerStartupError:

## Public Member Functions

- [ServerStartupError](#) (String message, Throwable error)

## Static Private Attributes

- static final long [serialVersionUID](#) = -1353788442300311372L

### 5.72.1 Detailed Description

Fatal error during the startup of the server

### 5.72.2 Constructor & Destructor Documentation

#### 5.72.2.1 ServerStartupError()

```
com.progmethgame.server.ServerStartupError.ServerStartupError (
    String message,
    Throwable error )
```

Create an startup error

##### Parameters

<i>message</i>	Causes
<i>error</i>	Reason

### 5.72.3 Member Data Documentation

#### 5.72.3.1 serialVersionUID

```
final long com.progmethgame.server.ServerStartupError.serialVersionUID = -1353788442300311372L
[static], [private]
```

The documentation for this class was generated from the following file:

- /home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/server/ServerStartupError.java

## 5.73 com.progmethgame.network.event.server.ServerUpdateEntityEvent Class Reference

Inheritance diagram for com.progmethgame.network.event.server.ServerUpdateEntityEvent:

### Public Member Functions

- [ServerUpdateEntityEvent](#) ([EntityData](#) data)
- void [notifyListener](#) ([ClientBusListener](#) target)

### Private Member Functions

- [ServerUpdateEntityEvent](#) ()

### Private Attributes

- [EntityData](#) data

#### 5.73.1 Detailed Description

Entity's data got updated

Author

pigt

#### 5.73.2 Constructor & Destructor Documentation

##### 5.73.2.1 ServerUpdateEntityEvent() [1/2]

```
com.progmethgame.network.event.server.ServerUpdateEntityEvent.ServerUpdateEntityEvent ( )
[private]
```

### 5.73.2.2 ServerUpdateEntityEvent() [2/2]

```
com.progmethgame.network.event.server.ServerUpdateEntityEvent.ServerUpdateEntityEvent (
    EntityData data )
```

## 5.73.3 Member Function Documentation

### 5.73.3.1 notifyListener()

```
void com.progmethgame.network.event.server.ServerUpdateEntityEvent.notifyListener (
    ClientBusListener target )
```

## 5.73.4 Member Data Documentation

### 5.73.4.1 data

```
EntityData com.progmethgame.network.event.server.ServerUpdateEntityEvent.data [private]
```

Updated data

The documentation for this class was generated from the following file:

- /home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/network/event/server/ServerUpdateEntityEvent.java

## 5.74 com.progmethgame.server.entities.effects.Slow Class Reference

Inheritance diagram for com.progmethgame.server.entities.effects.Slow:

### Public Member Functions

- [Slow](#) ()
- void [getEffect](#) ([Player](#) p)
- void [removeEffect](#) ([Player](#) p)
- [Slow cpy](#) ()

## Static Package Attributes

- static final float [slowrate](#) = [EffectConfig.SLOW\\_RATE](#)

## Additional Inherited Members

### 5.74.1 Detailed Description

Effect that slow down the play's walk speed

### 5.74.2 Constructor & Destructor Documentation

#### 5.74.2.1 Slow()

```
com.progmethgame.server.entities.effects.Slow.Slow ( )
```

### 5.74.3 Member Function Documentation

#### 5.74.3.1 cpy()

```
Slow com.progmethgame.server.entities.effects.Slow.cpy ( )
```

Clone this effect

Reimplemented from [com.progmethgame.server.entities.effects.StatusEffect](#).

#### 5.74.3.2 getEffect()

```
void com.progmethgame.server.entities.effects.Slow.getEffect (
    Player p )
```

Apply effect to the player

Reimplemented from [com.progmethgame.server.entities.effects.StatusEffect](#).

### 5.74.3.3 removeEffect()

```
void com.progmethgame.server.entities.effects.Slow.removeEffect (
    Player p )
```

Remove effect from the player

Reimplemented from [com.progmethgame.server.entities.effects.StatusEffect](#).

## 5.74.4 Member Data Documentation

### 5.74.4.1 slowrate

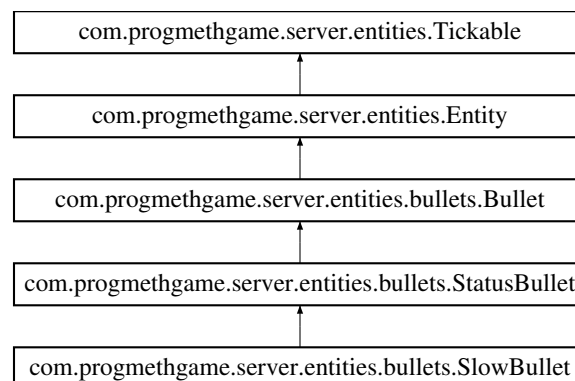

```
final float com.progmethgame.server.entities.effects.Slow.slowrate = EffectConfig.SLOW_RATE
[static], [package]
```

The documentation for this class was generated from the following file:

- [/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/server/entities/effects/Slow.java](#)

## 5.75 com.progmethgame.server.entities.bullets.SlowBullet Class Reference

Inheritance diagram for com.progmethgame.server.entities.bullets.SlowBullet:

### Public Member Functions

- [SlowBullet \(Player owner\)](#)
- [Bullet cpy \(\)](#)

## Additional Inherited Members

### 5.75.1 Constructor & Destructor Documentation

#### 5.75.1.1 SlowBullet()

```
com.progmethgame.server.entities.bullets.SlowBullet.SlowBullet (
    Player owner )
```

### 5.75.2 Member Function Documentation

#### 5.75.2.1 cpy()

```
Bullet com.progmethgame.server.entities.bullets.SlowBullet.cpy ( )
```

Duplicate this bullet

Reimplemented from [com.progmethgame.server.entities.bullets.Bullet](#).

The documentation for this class was generated from the following file:

- [/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/server/entities/bullets/SlowBullet.java](#)

## 5.76 com.progmethgame.server.entities.guns.SlowGun Class Reference

Inheritance diagram for com.progmethgame.server.entities.guns.SlowGun:

## Public Member Functions

- [SlowGun](#) ([Player](#) owner)

## Additional Inherited Members

### 5.76.1 Detailed Description

[Gun](#) that spawn slow bullet

### 5.76.2 Constructor & Destructor Documentation

#### 5.76.2.1 SlowGun()

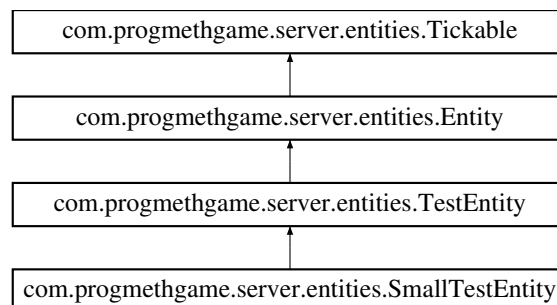

```
com.progmethgame.server.entities.guns.SlowGun.SlowGun (
    Player owner )
```

The documentation for this class was generated from the following file:

- `/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/server/entities/guns/SlowGun.java`

## 5.77 `com.progmethgame.server.entities.SmallTestEntity` Class Reference

Inheritance diagram for `com.progmethgame.server.entities.SmallTestEntity`:

## Public Member Functions

- [SmallTestEntity](#) ()
- float [getPhysicalSize](#) ()

## Additional Inherited Members

### 5.77.1 Constructor & Destructor Documentation

### 5.77.1.1 SmallTestEntity()

```
com.progmethgame.server.entities.SmallTestEntity.SmallTestEntity ( )
```

## 5.77.2 Member Function Documentation

### 5.77.2.1 getPhysicalSize()

```
float com.progmethgame.server.entities.SmallTestEntity.getPhysicalSize ( )
```

Return physical size for physic engine's [onCollide\(Entity\)](#) calculation.

Size in this case is the side length of the bounding square. The bounding box has the same center as the default bound.

Reimplemented from [com.progmethgame.server.entities.Entity](#).

The documentation for this class was generated from the following file:

- [/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/server/entities/SmallTestEntity.java](#)

## 5.78 com.progmethgame.server.blocks.SolidBlock Class Reference

Inheritance diagram for com.progmethgame.server.blocks.SolidBlock:

### Public Member Functions

- boolean [isSolid](#) ()

### 5.78.1 Detailed Description

A block that is solid

Author

pigt

## 5.78.2 Member Function Documentation

### 5.78.2.1 isSolid()

```
boolean com.progmethgame.server.blocks.SolidBlock.isSolid ( )
```

Can entity pass through this block?

#### Returns

solidness

Reimplemented from [com.progmethgame.server.blocks.Block](#).

The documentation for this class was generated from the following file:

- [/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/server/blocks/SolidBlock.java](#)

## 5.79 com.progmethgame.common.SoundType Enum Reference

### Public Member Functions

- String [getFilepath](#) ()

### Public Attributes

- [PEW](#) =("pew.wav")
- [END](#) =("end.ogg")

### Private Member Functions

- [SoundType](#) (String [filename](#))

### Private Attributes

- String [filename](#)

### 5.79.1 Detailed Description

Sound effect available on the client

## 5.79.2 Constructor & Destructor Documentation

### 5.79.2.1 SoundType()

```
com.progmethgame.common.SoundType.SoundType (
    String filename ) [private]
```

Create new sound with given file

## 5.79.3 Member Function Documentation

### 5.79.3.1 getFilepath()

```
String com.progmethgame.common.SoundType.getFilepath ( )
```

Get this sound's file path

## 5.79.4 Member Data Documentation

### 5.79.4.1 END

```
com.progmethgame.common.SoundType.END = ("end.ogg")
```

### 5.79.4.2 filename

```
String com.progmethgame.common.SoundType.filename [private]
```

File path to the sound

### 5.79.4.3 PEW

```
com.progmethgame.common.SoundType.PEW = ("pew.wav")
```

The documentation for this enum was generated from the following file:

- /home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/common/SoundType.java

## 5.80 com.progmethgame.server.blocks.SpikeBlock Class Reference

Inheritance diagram for com.progmethgame.server.blocks.SpikeBlock:

### Public Member Functions

- [SpikeBlock](#) ()
- boolean [isSolid](#) ()

### Protected Member Functions

- void [applyEffect](#) ([Player](#) p)

### Protected Attributes

- int [damage](#) = 7

### Additional Inherited Members

#### 5.80.1 Detailed Description

A block that damage the player when touched

Author

pigt

#### 5.80.2 Constructor & Destructor Documentation

##### 5.80.2.1 SpikeBlock()

```
com.progmethgame.server.blocks.SpikeBlock.SpikeBlock ( )
```

### 5.80.3 Member Function Documentation

#### 5.80.3.1 applyEffect()

```
void com.progmethgame.server.blocks.SpikeBlock.applyEffect (
    Player p ) [protected]
```

Reimplemented from [com.progmethgame.server.blocks.CooldownBlock](#).

#### 5.80.3.2 isSolid()

```
boolean com.progmethgame.server.blocks.SpikeBlock.isSolid ( )
```

Can entity pass through this block?

##### Returns

solidness

Reimplemented from [com.progmethgame.server.blocks.Block](#).

Reimplemented in [com.progmethgame.server.blocks.SpikeFloor](#).

### 5.80.4 Member Data Documentation

#### 5.80.4.1 damage

```
int com.progmethgame.server.blocks.SpikeBlock.damage = 7 [protected]
```

Damage dealt

The documentation for this class was generated from the following file:

- [/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/server/blocks/SpikeBlock.java](#)

## 5.81 com.progmethgame.server.blocks.SpikeFloor Class Reference

Inheritance diagram for com.progmethgame.server.blocks.SpikeFloor:

### Public Member Functions

- [SpikeFloor\(\)](#)
- boolean [isSolid\(\)](#)

### Additional Inherited Members

#### 5.81.1 Detailed Description

A block that damage the player when walked on

Author

pigt

#### 5.81.2 Constructor & Destructor Documentation

##### 5.81.2.1 SpikeFloor()

```
com.progmethgame.server.blocks.SpikeFloor.SpikeFloor ( )
```

#### 5.81.3 Member Function Documentation

### 5.81.3.1 isSolid()

```
boolean com.progmethgame.server.blocks.SpikeFloor.isSolid ( )
```

Can entity pass through this block?

#### Returns

solidness

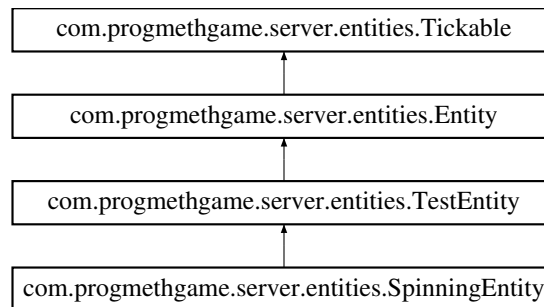

Reimplemented from [com.progmethgame.server.blocks.SpikeBlock](#).

The documentation for this class was generated from the following file:

- /home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/server/blocks/SpikeFloor.java

## 5.82 com.progmethgame.server.entities.SpinningEntity Class Reference

Inheritance diagram for com.progmethgame.server.entities.SpinningEntity:

### Public Member Functions

- void [tick](#) (float delta)

### Additional Inherited Members

### 5.82.1 Member Function Documentation

#### 5.82.1.1 tick()

```
void com.progmethgame.server.entities.SpinningEntity.tick (
    float delta )
```

Advance this component by delta second

## Parameters

<i>delta</i>	no. of second to advance
--------------	--------------------------

Reimplemented from [com.progmethgame.server.entities.TestEntity](#).

The documentation for this class was generated from the following file:

- [/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/server/entities/SpinningEntity.java](#)

## 5.83 com.progmethgame.launcher.screen.StageScreen Class Reference

Inheritance diagram for com.progmethgame.launcher.screen.StageScreen:

### Public Member Functions

- void [setStage](#) (Stage [stage](#))
- void [show](#) ()
- void [render](#) (float delta)
- void [resize](#) (int width, int height)
- void [pause](#) ()
- void [resume](#) ()
- void [hide](#) ()
- void [dispose](#) ()

### Private Attributes

- Stage [stage](#)

#### 5.83.1 Detailed Description

A screen that display a stage

#### 5.83.2 Member Function Documentation

#### 5.83.2.1 dispose()

```
void com.progmethgame.launcher.screen.StageScreen.dispose ( )
```

#### 5.83.2.2 hide()

```
void com.progmethgame.launcher.screen.StageScreen.hide ( )
```

#### 5.83.2.3 pause()

```
void com.progmethgame.launcher.screen.StageScreen.pause ( )
```

#### 5.83.2.4 render()

```
void com.progmethgame.launcher.screen.StageScreen.render (
    float delta )
```

#### 5.83.2.5 resize()

```
void com.progmethgame.launcher.screen.StageScreen.resize (
    int width,
    int height )
```

#### 5.83.2.6 resume()

```
void com.progmethgame.launcher.screen.StageScreen.resume ( )
```

#### 5.83.2.7 setStage()

```
void com.progmethgame.launcher.screen.StageScreen.setStage (
    Stage stage )
```

Set a current stage

## Parameters

<i>stage</i>	stage to show
--------------	---------------

## 5.83.2.8 show()

```
void com.progmethgame.launcher.screen.StageScreen.show ( )
```

## 5.83.3 Member Data Documentation

## 5.83.3.1 stage

```
Stage com.progmethgame.launcher.screen.StageScreen.stage [private]
```

Current stage

The documentation for this class was generated from the following file:

- [/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/launcher/screen/StageScreen.java](#)

## 5.84 com.progmethgame.server.entities.bullets.StatusBullet Class Reference

Inheritance diagram for com.progmethgame.server.entities.bullets.StatusBullet:

## Public Member Functions

- [StatusBullet](#) ([DisplayType](#) type, float speed, [Player](#) owner)
- void [onCollide](#) ([Player](#) hitPlayer)

## Protected Attributes

- [StatusEffect](#) effect

### 5.84.1 Detailed Description

A bullet that will apply effect to the player

Author

pigt

### 5.84.2 Constructor & Destructor Documentation

#### 5.84.2.1 StatusBullet()

```
com.progmethgame.server.entities.bullets.StatusBullet.StatusBullet (
    DisplayType type,
    float speed,
    Player owner )
```

### 5.84.3 Member Function Documentation

#### 5.84.3.1 onCollide()

```
void com.progmethgame.server.entities.bullets.StatusBullet.onCollide (
    Player hitPlayer )
```

Called when the bullet collide a player

Reimplemented from [com.progmethgame.server.entities.bullets.Bullet](#).

### 5.84.4 Member Data Documentation

#### 5.84.4.1 effect

```
StatusEffect com.progmethgame.server.entities.bullets.StatusBullet.effect [protected]
```

Effect to be applied to the player

The documentation for this class was generated from the following file:

- [/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/server/entities/bullets/StatusBullet.java](#)

## 5.85 com.progmethgame.server.entities.effects.StatusEffect Class Reference

Inheritance diagram for com.progmethgame.server.entities.effects.StatusEffect:

### Public Member Functions

- [StatusEffect](#) ([DisplayType](#) dispType)
- [DisplayType](#) getDisplayType ()
- int getMaxDuration ()
- abstract void getEffect ([Player](#) p)
- abstract void removeEffect ([Player](#) p)
- int getDuration ()
- boolean decreaseDuration ()
- void resetDuration ()
- abstract [StatusEffect](#) cpy ()

### Protected Attributes

- int duration
- int maxDuration
- [DisplayType](#) dispType

#### 5.85.1 Detailed Description

Represent an "effect" that can be attached to the player

Author

pigt

#### 5.85.2 Constructor & Destructor Documentation

##### 5.85.2.1 StatusEffect()

```
com.progmethgame.server.entities.effects.StatusEffect.StatusEffect (
    DisplayType dispType )
```

#### 5.85.3 Member Function Documentation

### 5.85.3.1 cpy()

```
abstract StatusEffect com.progmethgame.server.entities.effects.StatusEffect.cpy ( ) [abstract]
```

Clone this effect

Reimplemented in [com.progmethgame.server.entities.effects.Burn](#), [com.progmethgame.server.entities.effects.Slow](#), [com.progmethgame.server.entities.effects.Stunt](#), and [com.progmethgame.server.entities.effects.Confuse](#).

### 5.85.3.2 decreaseDuration()

```
boolean com.progmethgame.server.entities.effects.StatusEffect.decreaseDuration ( )
```

Decrease the effect's duration

### 5.85.3.3 getDisplayType()

```
DisplayType com.progmethgame.server.entities.effects.StatusEffect.getDisplayType ( )
```

Getter for status effect's icon

### 5.85.3.4 getDuration()

```
int com.progmethgame.server.entities.effects.StatusEffect.getDuration ( )
```

Duration left

### 5.85.3.5 getEffect()

```
abstract void com.progmethgame.server.entities.effects.StatusEffect.getEffect (
    Player p ) [abstract]
```

Apply effect to the player

Reimplemented in [com.progmethgame.server.entities.effects.Burn](#), [com.progmethgame.server.entities.effects.Slow](#), [com.progmethgame.server.entities.effects.Confuse](#), and [com.progmethgame.server.entities.effects.Stunt](#).

### 5.85.3.6 getMaxDuration()

```
int com.progmethgame.server.entities.effects.StatusEffect.getMaxDuration ( )
```

Max duration

### 5.85.3.7 removeEffect()

```
abstract void com.progmethgame.server.entities.effects.StatusEffect.removeEffect (
    Player p ) [abstract]
```

Remove effect from the player

Reimplemented in [com.progmethgame.server.entities.effects.Burn](#), [com.progmethgame.server.entities.effects.Slow](#), [com.progmethgame.server.entities.effects.Stunt](#), and [com.progmethgame.server.entities.effects.Confuse](#).

### 5.85.3.8 resetDuration()

```
void com.progmethgame.server.entities.effects.StatusEffect.resetDuration ( )
```

Reset the effect's duration

## 5.85.4 Member Data Documentation

### 5.85.4.1 dispType

```
DisplayType com.progmethgame.server.entities.effects.StatusEffect.dispType [protected]
```

### 5.85.4.2 duration

```
int com.progmethgame.server.entities.effects.StatusEffect.duration [protected]
```

### 5.85.4.3 maxDuration

```
int com.progmethgame.server.entities.effects.StatusEffect.maxDuration [protected]
```

The documentation for this class was generated from the following file:

- [/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/server/entities/effects/StatusEffect.java](#)

## 5.86 com.progmethgame.client.graphic.component.StatusOverlay Class Reference

Inheritance diagram for com.progmethgame.client.graphic.component.StatusOverlay:

### Public Member Functions

- [StatusOverlay](#) ()
- void [render](#) (Viewport view, Batch batch, Rectangle rect, [ClientEntity](#) target)
- void [setHealth](#) (float [health](#))
- void [setEffectIcon](#) ([DisplayType](#) effectIcon)

### Private Attributes

- float [health](#)
- [DisplayType](#) effectIcon

#### 5.86.1 Detailed Description

Displays status on top of the player's character

#### 5.86.2 Constructor & Destructor Documentation

##### 5.86.2.1 StatusOverlay()

```
com.progmethgame.client.graphic.component.StatusOverlay.StatusOverlay ( )
```

#### 5.86.3 Member Function Documentation

##### 5.86.3.1 render()

```
void com.progmethgame.client.graphic.component.StatusOverlay.render (
    Viewport view,
    Batch batch,
    Rectangle rect,
    ClientEntity target )
```

Render this overlay

## Parameters

<i>view</i>	Screen's viewport
<i>batch</i>	Screen's batch
<i>rect</i>	The entity's bounding box in screen space.
<i>target</i>	The owner of this overlay

Reimplemented from [com.progmethgame.client.graphic.component.Overlay](#).

### 5.86.3.2 setEffectIcon()

```
void com.progmethgame.client.graphic.component.StatusOverlay.setEffectIcon (
    DisplayType effectIcon )
```

### 5.86.3.3 setHealth()

```
void com.progmethgame.client.graphic.component.StatusOverlay.setHealth (
    float health )
```

## 5.86.4 Member Data Documentation

### 5.86.4.1 effectIcon

```
DisplayType com.progmethgame.client.graphic.component.StatusOverlay.effectIcon [private]
```

Effect applied to the player

### 5.86.4.2 health

```
float com.progmethgame.client.graphic.component.StatusOverlay.health [private]
```

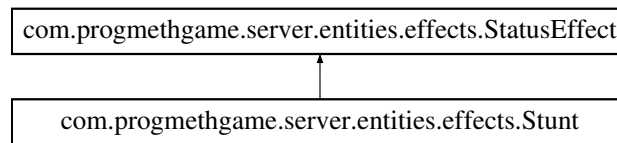

Player's health

The documentation for this class was generated from the following file:

- `/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/client/graphic/component/StatusOverlay.java`

## 5.87 com.progmethgame.server.entities.effects.Stunt Class Reference

Inheritance diagram for com.progmethgame.server.entities.effects.Stunt:

### Public Member Functions

- [Stunt](#) ()
- void [getEffect](#) ([Player](#) p)
- void [removeEffect](#) ([Player](#) p)
- [Stunt cpy](#) ()

### Additional Inherited Members

#### 5.87.1 Detailed Description

An effect that caused player to stop moving

#### 5.87.2 Constructor & Destructor Documentation

##### 5.87.2.1 Stunt()

```
com.progmethgame.server.entities.effects.Stunt.Stunt ( )
```

#### 5.87.3 Member Function Documentation

##### 5.87.3.1 cpy()

```
Stunt com.progmethgame.server.entities.effects.Stunt.cpy ( )
```

Clone this effect

Reimplemented from [com.progmethgame.server.entities.effects.StatusEffect](#).

### 5.87.3.2 `getEffect()`

```
void com.progmethgame.server.entities.effects.Stunt.getEffect (
    Player p )
```

Apply effect to the player

Reimplemented from [com.progmethgame.server.entities.effects.StatusEffect](#).

### 5.87.3.3 `removeEffect()`

```
void com.progmethgame.server.entities.effects.Stunt.removeEffect (
    Player p )
```

Remove effect from the player

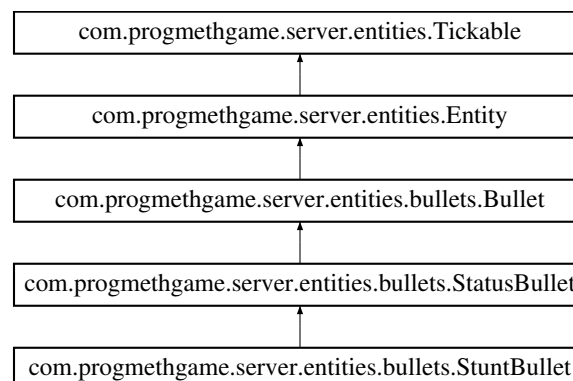

Reimplemented from [com.progmethgame.server.entities.effects.StatusEffect](#).

The documentation for this class was generated from the following file:

- [/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/server/entities/effects/Stunt.java](#) ↩

## 5.88 `com.progmethgame.server.entities.bullets.StuntBullet` Class Reference

Inheritance diagram for `com.progmethgame.server.entities.bullets.StuntBullet`:

### Public Member Functions

- [StuntBullet \(Player owner\)](#)
- [Bullet cpy \(\)](#)

## Additional Inherited Members

### 5.88.1 Detailed Description

A bullet that will temporary stop the player

### 5.88.2 Constructor & Destructor Documentation

#### 5.88.2.1 StuntBullet()

```
com.progmethgame.server.entities.bullets.StuntBullet.StuntBullet (
    Player owner )
```

### 5.88.3 Member Function Documentation

#### 5.88.3.1 cpy()

```
Bullet com.progmethgame.server.entities.bullets.StuntBullet.cpy ( )
```

Duplicate this bullet

Reimplemented from [com.progmethgame.server.entities.bullets.Bullet](#).

The documentation for this class was generated from the following file:

- [/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/server/entities/bullets/StuntBullet.java](#)

## 5.89 com.progmethgame.server.entities.guns.StuntGun Class Reference

Inheritance diagram for com.progmethgame.server.entities.guns.StuntGun:

## Public Member Functions

- [StuntGun](#) ([Player](#) owner)

## Additional Inherited Members

### 5.89.1 Detailed Description

[Gun](#) that spawn stunt bullet

### 5.89.2 Constructor & Destructor Documentation

#### 5.89.2.1 StuntGun()

```
com.progmethgame.server.entities.guns.StuntGun.StuntGun (
    Player owner )
```

The documentation for this class was generated from the following file:

- [/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/server/entities/guns/StuntGun.java](#)

## 5.90 com.progmethgame.server.entities.bullets.TeleportBullet Class Reference

Inheritance diagram for com.progmethgame.server.entities.bullets.TeleportBullet:

### Public Member Functions

- [TeleportBullet](#) ([Player](#) owner)
- void [onCollide](#) ([Player](#) hitPlayer)
- [Bullet](#) cpy ()

## Additional Inherited Members

### 5.90.1 Detailed Description

A bullet that will swap the owner and the victim's position

## 5.90.2 Constructor & Destructor Documentation

### 5.90.2.1 TeleportBullet()

```
com.progmethgame.server.entities.bullets.TeleportBullet.TeleportBullet (
    Player owner )
```

## 5.90.3 Member Function Documentation

### 5.90.3.1 cpy()

```
Bullet com.progmethgame.server.entities.bullets.TeleportBullet.cpy ( )
```

Duplicate this bullet

Reimplemented from [com.progmethgame.server.entities.bullets.Bullet](#).

### 5.90.3.2 onCollide()

```
void com.progmethgame.server.entities.bullets.TeleportBullet.onCollide (
    Player hitPlayer )
```

Called when the bullet collide a player

Reimplemented from [com.progmethgame.server.entities.bullets.Bullet](#).

The documentation for this class was generated from the following file:

- [/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/server/entities/bullets/TeleportBullet.java](#)

## 5.91 com.progmethgame.server.entities.guns.TeleportGun Class Reference

Inheritance diagram for com.progmethgame.server.entities.guns.TeleportGun:

## Public Member Functions

- [TeleportGun](#) ([Player](#) owner)

## Additional Inherited Members

### 5.91.1 Detailed Description

[Gun](#) that spawn teleport bullet

### 5.91.2 Constructor & Destructor Documentation

#### 5.91.2.1 TeleportGun()

```
com.progmethgame.server.entities.guns.TeleportGun.TeleportGun (
    Player owner )
```

The documentation for this class was generated from the following file:

- [/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/server/entities/guns/TeleportGun.java](#)

## 5.92 com.progmethgame.server.entities.bullets.TestBullet Class Reference

Inheritance diagram for com.progmethgame.server.entities.bullets.TestBullet:

## Public Member Functions

- [TestBullet](#) ([Player](#) owner)
- void [onCollide](#) ([Player](#) hitPlayer)
- [Bullet cpy](#) ()

## Additional Inherited Members

### 5.92.1 Detailed Description

[Bullet](#) for testing purpose

### 5.92.2 Constructor & Destructor Documentation

#### 5.92.2.1 TestBullet()

```
com.progmethgame.server.entities.bullets.TestBullet.TestBullet (
    Player owner )
```

### 5.92.3 Member Function Documentation

#### 5.92.3.1 cpy()

```
Bullet com.progmethgame.server.entities.bullets.TestBullet.cpy ( )
```

Duplicate this bullet

Reimplemented from [com.progmethgame.server.entities.bullets.Bullet](#).

#### 5.92.3.2 onCollide()

```
void com.progmethgame.server.entities.bullets.TestBullet.onCollide (
    Player hitPlayer )
```

Called when the bullet collide a player

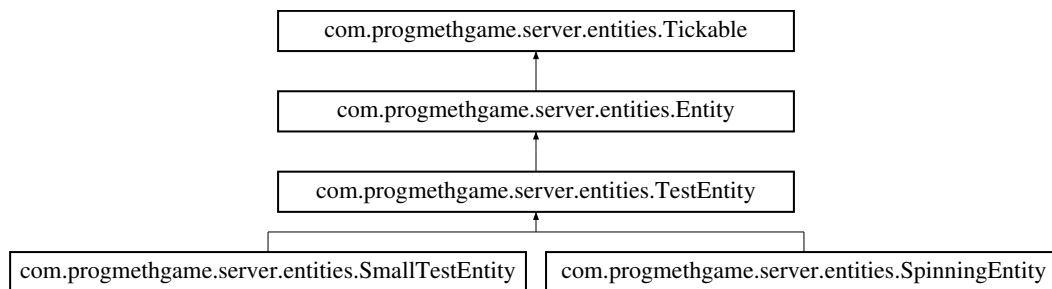

Reimplemented from [com.progmethgame.server.entities.bullets.Bullet](#).

The documentation for this class was generated from the following file:

- [/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/server/entities/bullets/TestBullet.java](#)

## 5.93 com.progmethgame.server.entities.TestEntity Class Reference

Inheritance diagram for com.progmethgame.server.entities.TestEntity:

### Public Member Functions

- [TestEntity](#) ()
- void [onCollide](#) ([Entity](#) other)
- void [tick](#) (float delta)

### Protected Attributes

- [DisplayType](#) cool = [DisplayType](#).TEST
- [DisplayType](#) hot = [DisplayType](#).RICK

### Private Attributes

- int [cooldown](#) = 0

## 5.93.1 Constructor & Destructor Documentation

### 5.93.1.1 TestEntity()

```
com.progmethgame.server.entities.TestEntity.TestEntity ( )
```

## 5.93.2 Member Function Documentation

### 5.93.2.1 onCollide()

```
void com.progmethgame.server.entities.TestEntity.onCollide (
    Entity other )
```

Called when entity touched other.

## Parameters

<i>other</i>	the touched entity
--------------	--------------------

Reimplemented from [com.progmethgame.server.entities.Entity](#).

**5.93.2.2 tick()**

```
void com.progmethgame.server.entities.TestEntity.tick (
    float delta )
```

Advance this component by delta second

## Parameters

<i>delta</i>	no. of second to advance
--------------	--------------------------

Reimplemented from [com.progmethgame.server.entities.Entity](#).

Reimplemented in [com.progmethgame.server.entities.SpinningEntity](#).

**5.93.3 Member Data Documentation****5.93.3.1 cool**

```
DisplayType com.progmethgame.server.entities.TestEntity.cool = DisplayType.TEST [protected]
```

**5.93.3.2 cooldown**

```
int com.progmethgame.server.entities.TestEntity.cooldown = 0 [private]
```

**5.93.3.3 hot**

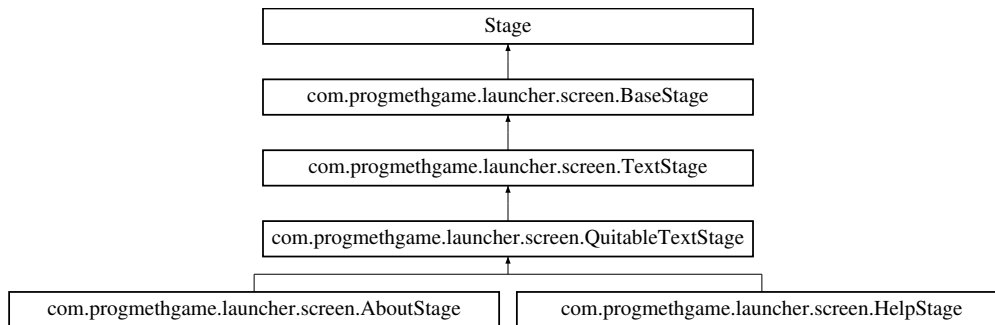

```
DisplayType com.progmethgame.server.entities.TestEntity.hot = DisplayType.RICK [protected]
```

The documentation for this class was generated from the following file:

- /home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/server/entities/TestEntity.java

## 5.94 com.progmethgame.launcher.screen.TextStage Class Reference

Inheritance diagram for com.progmethgame.launcher.screen.TextStage:

### Public Member Functions

- [TextStage](#) (String text)

### Protected Attributes

- Label [textLabel](#)

#### 5.94.1 Detailed Description

Display a message

#### 5.94.2 Constructor & Destructor Documentation

##### 5.94.2.1 TextStage()

```
com.progmethgame.launcher.screen.TextStage.TextStage (
    String text )
```

Create new text stage with specified message

Parameters

<i>text</i>	a message to display
-------------	----------------------

#### 5.94.3 Member Data Documentation

### 5.94.3.1 textLabel

Label com.progmethgame.launcher.screen.TextStage.textLabel [protected]

Text label displayed

The documentation for this class was generated from the following file:

- /home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/launcher/screen/TextStage.java

## 5.95 com.progmethgame.server.entities.Tickable Interface Reference

Inheritance diagram for com.progmethgame.server.entities.Tickable:

### Public Member Functions

- void [tick](#) (float delta)

### 5.95.1 Detailed Description

Interface on the a component that update with time.

Author

pigt

### 5.95.2 Member Function Documentation

#### 5.95.2.1 tick()

```
void com.progmethgame.server.entities.Tickable.tick (
    float delta )
```

Advance this component by delta second

## Parameters

<i>delta</i>	no. of second to advance
--------------	--------------------------

Implemented in [com.progmethgame.server.entities.Player](#), [com.progmethgame.server.GameMap](#), [com.progmethgame.server.entities.com.progmethgame.server.entities.bullets.Bullet](#), [com.progmethgame.server.blocks.CooldownBlock](#), [com.progmethgame.server.entities.com.progmethgame.server.blocks.Block](#), and [com.progmethgame.server.entities.SpinningEntity](#).

The documentation for this interface was generated from the following file:

- [/home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/server/entities/Tickable.java](#)↔

## 5.96 com.progmethgame.network.Ticker Class Reference

### Public Member Functions

- [Ticker](#) (float [tickRate](#))
- void [tick](#) () throws InterruptedException
- long [getLastDeltaMillis](#) ()

### Private Attributes

- final float [tickRate](#)
- long [lastTickMillis](#)
- long [lastTickDuration](#) = 0

### 5.96.1 Detailed Description

Tick governor

### 5.96.2 Constructor & Destructor Documentation

#### 5.96.2.1 Ticker()

```
com.progmethgame.network.Ticker.Ticker (
    float tickRate )
```

### 5.96.3 Member Function Documentation

**5.96.3.1 getLastDeltaMillis()**

```
long com.progmethgame.network.Ticker.getLastDeltaMillis ( )
```

**5.96.3.2 tick()**

```
void com.progmethgame.network.Ticker.tick ( ) throws InterruptedException
```

**5.96.4 Member Data Documentation****5.96.4.1 lastTickDuration**

```
long com.progmethgame.network.Ticker.lastTickDuration = 0 [private]
```

Duration between the last tick and this tick

**5.96.4.2 lastTickMillis**

```
long com.progmethgame.network.Ticker.lastTickMillis [private]
```

timestamp of the last tick

**5.96.4.3 tickRate**

```
final float com.progmethgame.network.Ticker.tickRate [private]
```

Target tick rate

The documentation for this class was generated from the following file:

- /home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/network/ServerBus.java ↩

**5.97 com.progmethgame.network.UUIDSerializer Class Reference**

Inheritance diagram for com.progmethgame.network.UUIDSerializer:

## Public Member Functions

- void [write](#) (Kryo kryo, Output output, UUID object)
- UUID [read](#) (Kryo kryo, Input input, Class< UUID > type)

### 5.97.1 Detailed Description

UUID Serializer

### 5.97.2 Member Function Documentation

#### 5.97.2.1 read()

```
UUID com.progmethgame.network.UUIDSerializer.read (  
    Kryo kryo,  
    Input input,  
    Class< UUID > type )
```

#### 5.97.2.2 write()

```
void com.progmethgame.network.UUIDSerializer.write (  
    Kryo kryo,  
    Output output,  
    UUID object )
```

The documentation for this class was generated from the following file:

- /home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/network/SerializationUtil.java↔

## 5.98 com.progmethgame.server.blocks.WalkableBlock Class Reference

Inheritance diagram for com.progmethgame.server.blocks.WalkableBlock:

## Public Member Functions

- boolean [isSolid](#) ()

### 5.98.1 Member Function Documentation

#### 5.98.1.1 isSolid()

```
boolean com.progmethgame.server.blocks.WalkableBlock.isSolid ( )
```

Can entity pass through this block?

#### Returns

solidness

Reimplemented from [com.progmethgame.server.blocks.Block](#).

The documentation for this class was generated from the following file:

- /home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/server/blocks/Walkable↔  
Block.java

## 5.99 com.progmethgame.server.entities.WinningBannerEntity Class Reference

Inheritance diagram for com.progmethgame.server.entities.WinningBannerEntity:

## Public Member Functions

- [WinningBannerEntity](#) (UUID winPlayer)

## Additional Inherited Members

### 5.99.1 Constructor & Destructor Documentation

#### 5.99.1.1 WinningBannerEntity()

```
com.progmethgame.server.entities.WinningBannerEntity.WinningBannerEntity (
    UUID winPlayer )
```

The documentation for this class was generated from the following file:

- /home/pigt/Workspace/project-2019-2-progmeth-myfirstgame/core/src/com/progmethgame/server/entities/Winning↔  
BannerEntity.java
